RISK FACTORS

As a prospective Investor there are a number of risk factors which you should be aware of before investing in the New Ordinary Shares. Prospective Investors should read the whole of the Prospectus and not rely solely on the information in the sections entitled "Risk Factors".

The Directors consider the following risks relating to the New Ordinary Shares to be material for potential Investors, but the risks listed below do not necessarily comprise all those relating to the New Ordinary Shares and are not set out in order of priority. Additional risks and uncertainties currently unknown to the Directors (such as changes in legal, regulatory or tax requirements), or which the Directors currently believe are immaterial, may also have a materially adverse effect on the New Ordinary Shares. Material risks relating to the Companies are set out in the Registration Document.

- Levels, bases of, and relief from taxation are subject to change. Such changes could be retrospective. The tax reliefs described are based on current legislation, practice and interpretation. The ability of Investors to secure the tax reliefs available to investors in VCTs depends on their individual circumstances.
- Changes in legislation concerning VCTs in general, and Qualifying Investments and Qualifying Trades in particular, may restrict or adversely affect the ability of either Company to meet its objectives, and may reduce the returns to Investors.
- There can be no assurances that either Company will meet its objectives. The Companies will face competition for investment opportunities and there can be no assurance that sufficient suitable investment opportunities will be identified.
- It is the intention of the Directors that the Companies be managed so as to qualify as a VCT, but there can be no guarantee that such status will be maintained. If either Company fails to meet the qualifying requirements for VCTs, this could result in adverse tax consequences for Investors, including being required to repay the 30% income tax relief.
- In order to comply with VCT legislation, the Qualifying Companies must be unquoted and have gross assets of not more than £15 million immediately prior and £16 million immediately after the investment and generally be no more than 7 years old (10 years for a Knowledge Intensive Company ("KIC")). Older companies may also be Qualifying Companies where previous Risk Finance State Aid was received by the Qualifying Company within 7 years (10 years for KICs) or where the company is entering a new market and a turnover test is satisfied. Further, each Qualifying Company must have less than 250 full time (or equivalent) employees at the time of investment (500 employees in the case of a KIC).
- The Companies may invest in businesses which are considerably smaller than the maximum size allowed by the VCT legislation. They may also have a short trading history. Investment in small unquoted companies involves substantially higher risk than investing in larger, longer established businesses such as those listed on the main market of the London Stock Exchange. In particular, small companies often have limited product lines, markets and/or financial resources and may be dependent for their management on a smaller number of key individuals.
- The Finance (No. 2) Act 2015 introduced a maximum age limit for companies receiving VCT investments (generally seven years from first commercial sale, or ten years for KICs), and a maximum amount of Risk Finance State Aid which a company can receive over its lifetime (£12 million, or £20 million for KICs). It also imposed further restrictions on the use of VCT funds received by investee companies.
- The Finance Act 2018 introduced a new "risk-to-capital" condition for Qualifying Investments, designed to focus investments towards potentially higher growth earlier stage businesses, and away from lower risk investments, such as those with significant property assets which could be regarded as lower risk. These changes may mean that there are fewer opportunities for investment, that each Company may not necessarily be able to provide further investment funds for companies already in its portfolio and that there is a greater element of risk given the focus on earlier stage businesses. This could affect the returns to the Companies and Shareholders.
- The penalty for contravention of the VCT Rules may include loss of VCT status with a resultant clawback of VCT tax reliefs from investors. HMRC have stated that VCT status will not be withdrawn where an investment is ultimately found to be non-qualifying if, after taking reasonable steps including seeking professional advice, a VCT considers that an investment is qualifying. However, HMRC may require rectification of the breach, which may mean the VCT is forced to dispose of the investment at a loss.

- Qualifying Investments made by the Companies will be in companies whose shares are not readily marketable and, therefore, may be difficult to realise. There may also be constraints imposed on the realisation of investments in order to maintain the VCT tax status of the Companies.
- As minority investors the Companies will not control the boards of directors of investee companies and may not be in a position to fully protect their interests.
- Investors should be aware that the sale of New Ordinary Shares within five years of their subscription will require the repayment of the 30% income tax relief obtained on the subscription for these Shares. Accordingly, an investment in a Company should be considered as a longer term investment.
- The Companies are each seeking up to £30 million, with an over allotment facility of a further £10 million each, through the Offer. To the extent that a smaller level of funds is raised, the portfolio may be less diversified than if the Offer had been fully subscribed.
- Past performance of the funds managed by the Manager is not an indication of the future performance of the Companies.
- A significant proportion (38.7% as at 31 August 2018) of ProVen VCT's NAV is concentrated in five investments. Potential Investors should be aware that the future investment performance of the Ordinary Shares in ProVen VCT may be more dependent on the performance of these investments as a result.
- A significant proportion (36.0% as at 31 August 2018) of PGI VCT's NAV is concentrated in five investments. Potential Investors should be aware that the future investment performance of the Ordinary Shares in PGI VCT may be more dependent on the performance of these investments as a result.
- Although the Companies aim to make investments in small and medium sized unquoted companies with excellent growth prospects, some of the existing investee companies may have limited scope for future growth.
- The Companies' objectives of achieving a total return greater than that available from investment in a portfolio of quoted companies is only a target and is not guaranteed. The value of an investment in either Company depends on the performance of its underlying assets and that value, and the income derived from the investment, may go down as well as up.
- The total dividends per New Ordinary Share paid during a financial period may exceed the increase, if any, in the NAV per New Ordinary Share arising from net income and realised and unrealised gains during the period. If this is the case, the NAV per New Ordinary Share will fall over the period.
- Where the European Commission believes that Risk Finance State Aid has been provided which is not in accordance with The Risk Finance Guidelines, they may require the UK Government to recover that Risk Finance State Aid. There is currently no mechanism in place for this, but recovery may be from the investee companies, the Companies or the Companies' investors.
- Prospective Investors should be aware that the value of the New Ordinary Shares may fluctuate and an Investor may not receive back the full amount originally invested.
- Whilst the Companies are targeting an annual dividend yield of 5% per annum, there is no guarantee that this will be achieved. Each Company's ability to pay dividends may be adversely affected by a lack of distributable reserves, insufficient cash and/or legislative requirements. There is no certainty about the amount and timing of future dividends or that any dividends will be paid.
- Although it is anticipated that the New Ordinary Shares will be admitted to a premium listing on the Official List and to trading on the London Stock Exchange's main market for listed securities, there is likely to be an illiquid market primarily because the initial income tax relief is only available to those subscribing for newly issued shares. It may, therefore, be difficult for Shareholders to sell their New Ordinary Shares. In addition, it is likely that the market value of the New Ordinary Shares will be less than their underlying net asset value.
- Whilst it is the intention of the Directors that each Company will buy back New Ordinary Shares from Shareholders at a discount to NAV of not more than 5%, there can be no guarantee that either Company will buy back New Ordinary Shares from Shareholders or that, if it does, the discount to NAV will not be greater than 5%. Share buy backs will be subject to applicable legislation and VCT regulations and the availability of sufficient cash in the relevant Company for follow-on investments and operational requirements. The number of Ordinary Shares bought back in each year by each Company will be a maximum of 14.99% of the number of Ordinary Shares in issue.
- Tax relief on subscriptions for shares in a VCT is restricted where, within six months (before or after) that subscription, the investor had disposed of shares in the same VCT or in a VCT which is known to be merging with that VCT. Existing Shareholders should be aware that the sale of existing Ordinary Shares in the Companies within these periods could, therefore, put their income tax relief relating to the Offer at risk.
- On 24 June 2016 it was announced that UK electorate had voted to leave the European Union ("EU") which is due to take effect on 29 March 2019. At the date of this document there is still significant uncertainty over the manner and form of the UK's

withdrawal from the EU. As the Companies currently have to comply with European-led legislation, the future regulatory environment is therefore subject to significant uncertainty. However, at least in the short term and until the UK's withdrawal from the European Union has been completed, the Companies will continue to be subject to European-led legislation, as enacted into UK legislation.

11 January 2019

Dear potential Investor,

We are delighted to be able to introduce the latest share offer (the "Offer") from ProVen VCT and PGI VCT, which is an opportunity to invest in the existing investment portfolios of two long established VCTs. ProVen VCT's NAV total return over the last five years is £148.88 for every £100 invested¹. Further details of ProVen VCT's historic performance are given on pages 10 to 13. PGI VCT's NAV total return over the last five years is £129.10 for every £100 invested¹. Further details of PGI VCT's historic performance are given on pages 10 to 13.

Each of the Companies has a target of paying dividends of approximately 5% of the opening NAV each year. After taking into account the initial 30% income tax relief on subscription for shares this equates to a tax free yield of over 7%. The Boards believe that this target is consistent with the NAV remaining broadly stable over time, although this will depend on the returns achieved by each of the Companies' investments and cannot be guaranteed. Larger special dividends may be paid if there is a realisation or series of realisations from the portfolio which results in an exceptionally large profit. For the three financial years ended 29 February 2016, 28 February 2017 and 28 February 2018, ProVen VCT has paid tax free dividends per Ordinary Share of 6.5p, 5.0p and 9.5p respectively and PGI VCT has paid tax free dividends per Ordinary Share of 6.0p, 4.5p and 12.25p respectively. This is equivalent to an average dividend yield of 6.8% p.a. for ProVen VCT and 9.1% p.a. for PGI VCT on the relevant net asset value at the beginning of the relevant financial year (excluding the initial 30% income tax relief). For the year ending 28 February 2019, special interim dividends of 25.25p per Ordinary Share for ProVen VCT and 4.5p per Ordinary Share for PGI VCT were paid on 30 November 2018. These special interim dividends broadly equate to the realised capital profits per Ordinary Share on the realisations of Watchfinder and Chargemaster and represent a cash return of 25.3% and 6.2% on the opening NAV per Ordinary Share at 1 March 2018 for ProVen VCT and PGI VCT respectively.

Both ProVen VCT and PGI VCT are managed by Beringea LLP (the "Manager"), an award winning venture capital investment manager which has over 25 years' experience of investing in unquoted companies and which has managed the Companies since they were launched.

Since November 2015, ProVen VCT has invested over £38.8 million and PGI VCT has invested over £26.7 million. The Manager continues to experience a strong flow of new investment opportunities. The Boards have, therefore, decided to raise more funds to ensure that the Companies can take full advantage of these opportunities. More details of the Offer are set out on the following pages. To invest, please complete the Application Form at the end of this document. If you have any questions about the Offer or how to complete the Application Form, please call the Manager on 020 7845 7820. Please be aware, however, that the Manager is not able to give personal financial or tax advice.

We look forward to welcoming new investors to the Companies as well as existing Shareholders increasing their holdings.

Yours faithfully

WHY INVEST IN THE OFFER?

OVERVIEW

The Offer is targeting returns which are greater than those available from investing in a portfolio of quoted companies, through each Company's established strategy of investing in a portfolio of carefully selected small and medium sized private companies with the potential for rapid growth. For more information about the Companies' investment strategies and examples of the types of businesses in which they invest, please see the section of this document headed "Growth Capital Investing" on page 15.

The returns generated by each Company's investment portfolio will be enhanced by several attractive tax benefits, including 30% income tax relief on the amount invested and tax-free dividends.

Both Companies have been managed since inception by Beringea LLP (and its predecessor companies), a specialist, award winning, venture capital firm, which manages more than £185 million of VCT assets. Beringea LLP is part of an international fund management group which manages more than \$450 million of venture capital assets.

TARGET DIVIDEND YIELD OF 5% P.A. TAX-FREE

Each Company has a target dividend yield of approximately 5% of NAV per annum. This is equivalent to a gross dividend yield to Investors of 7.1% p.a., after taking into account the initial 30% income tax relief on subscription. As no tax is payable on VCT dividends, the effective gross dividend yield to a 40% taxpayer is 10.6% p.a. and 11.5% p.a. to an additional rate taxpayer (ignoring the tax-free dividend allowance announced in July 2015 and introduced from the tax year 2016/17). The Boards believe that these targets are consistent with the NAV remaining broadly stable over time, although this will depend on the returns achieved by each Company's investments and cannot be guaranteed. The objective of paying a dividend of approximately 5% of NAV each year is a target and there is no guarantee that this will be achieved. New Ordinary Shares issued under the Offer will be immediately eligible for any dividends declared and paid by the Companies with a record date following the allotment of such New Ordinary Shares.

TARGET DIVIDEND YIELD

Target dividend yield (% of NAV)	5.0%
Tax-free yield after initial 30% tax relief¹	7.1%
Gross equivalent yield²	
40% taxpayer	10.6%
45% taxpayer	11.5%

¹Target dividend yield divided by 0.7 to allow for the 30% initial tax relief. The effective subscription price per New Ordinary Share paid by Investors will be higher than the NAV of Ordinary Shares at the date of allotment because of initial charges and/or fees paid to Financial Advisers.

²Ignoring the tax-free dividend allowance introduced by HMRC from tax year 2016/17.

Either Company may pay a special dividend in addition to the target 5% yield in the event of there being a realisation or series of realisations from the portfolio which results in an exceptionally large gain.

The annual dividend yield for the previous five financial years for ProVen VCT is shown in the table below:

DIVIDEND YIELD FROM PROVEN VCT SINCE THE ADOPTION OF THE CURRENT DIVIDEND POLICY						
Period to the end of February ¹						
	2013	2014	2015	2016	2017	2018
ProVen VCT	5.1%	7.3%	4.8%	6.4%	5.0%	8.9%

¹Dividend yield is calculated as the dividend per Ordinary Share for the year, divided by the NAV per Ordinary Share at the start of the year. The NAV per Ordinary Share may fall over the course of the year as a result of the payment of dividends. No account is taken in the table above of the initial tax relief.

Dividend payments for the year to 28 February 2014 included a special dividend of 2.5p per Ordinary Share arising from the profits realised on the disposals of Fjordnet and Espresso Group during the year.

Dividend payments for the year to 29 February 2016 included a final dividend of 4.0p per Ordinary Share following the successful partial realisation of Monica Vinader.

Dividend payments for the year to 28 February 2018 included a special interim dividend of 7.0p per Ordinary Share following the successful realisations of APM Healthcare, MatsSoft and Third Bridge.

On 22 October 2018, the Board of ProVen VCT declared a special interim dividend for the year ending 28 February 2019 of 25.25p per Ordinary Share following the successful realisations of Watchfinder and Chargemaster. This dividend alone represents a dividend yield of 25.3% for the year ending 28 February 2019 before account is taken of any other dividends that might be paid in respect of the financial year to 28 February 2019.

DIVIDEND YIELD FROM PGI VCT SINCE THE ADOPTION OF THE CURRENT DIVIDEND POLICY

	2013	2014	2015	2016	2017	2018
PGI VCT	4.9%	7.4%	5.2%	7.0%	5.6%	14.8%

¹Dividend yield is calculated as the dividend per Ordinary Share for the year, divided by the NAV per Ordinary Share at the start of the year. The NAV per Ordinary Share may fall over the course of the year as a result of the payment of dividends. No account is taken in the table above of the initial tax relief.

Dividend payments for the year to 28 February 2014 included a special dividend of 2.5p per Ordinary Share arising from the profits realised on the disposals of Fjordnet and Espresso Group during the year.

Dividend payments for the year to 28 February 2018 included a special interim dividend of 10.25p per Ordinary Share following the successful realisations of Abzena, APM Healthcare, MatsSoft and Third Bridge.

On 22 October 2018, the Board of PGI VCT declared a special interim dividend for the year ending 28 February 2019 of 4.5p per Ordinary Share following the successful realisations of Watchfinder and Chargemaster. This dividend alone represents a dividend yield of 6.2% for the year ending 28 February 2019 before account is taken of any other dividends that might be paid in respect of the financial year to 28 February 2019.

The level of previous dividend payments is not a guide to future dividend payments, which will depend on there being sufficient distributable reserves and cash resources, and on VCT Rules.

Investors who would prefer a capital growth option can re-invest their dividends through each Company's dividend reinvestment scheme to obtain more shares in that Company. Any amounts reinvested should be eligible for income tax relief of 30%, subject to the usual VCT restrictions. Investors wishing to take advantage of this opportunity should read the rules of the dividend reinvestment scheme in Part 5 and sign in the relevant box in Section 7 of the Application Form.

LIQUIDITY FOR SHAREHOLDERS

Both Companies have a policy of buying back their own shares at a discount to NAV of 5%. A policy of buying back shares from all Shareholders who wish to sell, subject to an annual limit of 14.99% of the shares in issue, has been operated by both Companies continuously since July 2004.

Investors should note that if they sell their New Ordinary Shares less than 5 years from the date of allotment they will have to repay the initial tax relief.

ESTABLISHED PORTFOLIO

Investors in the Offer will gain immediate access to an established portfolio of 43 companies in the case of ProVen VCT and 43 companies in the case of PGI VCT. This has a number of benefits to Investors:

Visibility of portfolio: Investors are investing into a known portfolio, rather than a “blind pool”.

Diversification: ProVen VCT’s assets are spread over 43 companies and PGI VCT’s assets are spread over 43 companies which means that poor performance by any single company would have only a limited effect on either Company’s overall performance.

Maturity of investments: Several of the Companies’ Qualifying Investments have been in their portfolios for a number of years. The Manager would expect to exit from some of these companies within the next 1-2 years. Any profits made on these disposals may be available for distribution to Shareholders as tax-free dividends in line with each Company’s dividend policy.

Some examples of recent sales of successful investments from the Companies’ portfolios are given in the tables below:

- Creating a widely diversified portfolio of VCT Qualifying Investments
- Extensive investigation of potential investment opportunities
- Close monitoring of investments, including placing a member of the investment team on the board of most portfolio companies
- Retaining a portion of the portfolio required for liquidity purposes in lower risk investments, including cash deposits

TAX BENEFITS TO VCT INVESTORS

- Income tax relief of 30% of the amount subscribed, providing that the shares are held for at least 5 years. Relief is restricted to the amount which reduces the Investor's income tax liability to nil and on investments up to a maximum of £200,000 per person per tax year

There is no maximum size of investment but tax reliefs are only available on investments in VCTs of up to a maximum of £200,000 per person per tax year. Details of the Pricing Formula which will determine the

number of New Ordinary Shares to be allotted under the Offer are given on page 28.

GROWTH CAPITAL INVESTING

Introduction

The small and medium sized company ("SME") sector is a vital part of the UK economy, accounting for over half of private sector employment. Some of these companies have the potential to grow very quickly, given access to sufficient finance and support for management. However, SMEs often find it difficult to raise the capital they need. Banks are frequently not willing to lend to SMEs because of a lack of security for their loans. Furthermore, as private companies, SMEs cannot access public stock markets to raise finance.

The principal investment strategy of each Company is to identify a number of small and medium sized UK private companies with the potential to grow rapidly and to provide them with the capital and management support they need to be able to take full advantage of this potential. In return for this capital, a Company will take a shareholding in the company, allowing it to benefit from future increases in the business's value.

Rapidly growing SMEs make attractive acquisition targets for larger companies looking for ways to boost their own rate of growth. A sale to a larger business is, therefore, the most frequent means by which the Companies achieve profitable disposals of successful portfolio companies. Any profit made on an investment may then be available to be paid out to Shareholders as a dividend in line with each Company's dividend policy.

The attractions of investing in SMEs

One of the key reasons why some SMEs are able to grow so quickly is precisely the fact that they are relatively small at the point of investment. While still challenging, it is often much easier to achieve a ten-fold growth in the turnover of a company by increasing sales from £1 million to £10 million, than it is to increase sales from £100 million to £1 billion.

Another attraction of investing in SMEs is that, because they tend to focus on quite specific market sectors, they are much less dependent than larger companies on the performance of the whole economy to generate growth. If an SME develops new products or services which are significantly differentiated from, and superior to, other offerings, they can create a demand which drives exceptional rates of growth, far exceeding the growth rate of the overall economy. Some examples of the Companies' investee companies which have achieved this are given on the following pages.

This dependence on a few key products or services does, however, make SMEs more vulnerable to changes in their markets, such as the introduction of competing offerings. A diversified portfolio of investments, such as those the Companies have, reduces the impact of any individual investment underperforming.

A key feature of SMEs which differentiates them from most quoted companies is that the directors and other key employees usually have sizeable shareholdings. This means that the management team is highly incentivised to make their business grow, thereby increasing the value of their personal investments, and to realise this value through a sale of the business at an appropriate time.

Investing in private companies, and taking a significant equity stake in the business, allows the Manager to have an influence over the business. By appointing one of its investment managers to the board of most companies in which each Company invests, the Manager is able to add value to the business, as well as being able to identify any potential problems at an early stage and ensuring that appropriate action is taken.

Key characteristics of target companies

The Companies seek to make investments in VCT-qualifying companies with the following characteristics:

- a strong, balanced and well-motivated management team with a proven track record of achievement;
- a defensible market position;
- good growth potential;
- an attractive entry price for the Companies; and
- a clearly identified route for a profitable realisation within a three to four year period.

Use of the funds invested by the Companies

The funds provided by the Companies will be deployed in accordance with their respective investment policies and typically used by a portfolio company for one, or a combination, of the following purposes:

- Adding to the senior management team
- Sales and marketing initiatives
- Establishing new UK offices
- International expansion
- Development and launch of additional products or services

In order to ensure that their investment portfolios are broadly diversified, the Companies invest in SMEs in a wide variety of sectors, across most of the UK economy.

EXAMPLES

OF GROWTH CAPITAL INVESTMENTS MADE BY THE COMPANIES

A number of examples of growth capital investments made by the Companies are given below. Potential Investors should note that Watchfinder was acquired by Richemont Holdings UK Limited in July 2018 and potential Investors will therefore not gain exposure to this company by investing in the Offer. The past performance of these companies is not a guide to how they, or other companies in which the Companies invest, will perform in the future.

INFINITY RELIANCE LIMITED (trading as My 1st Years)

My 1st Years is an online retailer of personalised gifts for babies and young children. It produces a range of clothing, shoes, accessories, toys and furniture that can be customised with names and messages for customers in the UK and internationally.

The business was founded in 2009 by Daniel Price and Jonny Sitton, two friends who originally began producing personalised shoes for new-borns. The founders scaled the product range and built the business into an international brand with partnerships with high-street retailers including Selfridges, Harrods and John Lewis.

The Companies invested £4 million in December 2016 as part of an investment round of £5 million alongside Hargreave Hale. The business had previously received £2 million in funding from individual investors. A further £3.5 million was invested by the Companies in May 2018. The Companies' investment is being used to support developments in operations and marketing as well as an expansion into the US market.

SMART INFORMATION SYSTEMS GMBH (trading as Smart Assistant)

Smart Assistant specialises in creating digital assistants that are used by corporates and retailers to interact with customers online, on mobile devices and at in-store checkouts.

The digital assistants, which harness machine learning and complex decision trees, are used by a range of businesses including Amazon, Microsoft, Lidl and Canon to take customers through difficult purchasing decisions that would ordinarily require human interaction. The Companies first invested £4.0 million in Smart Assistant in September 2017. The Companies have since provided £3.1 million in follow-on funding, bringing the Companies' total investment to £7.1 million. The investments have supported the company as it has expanded its sales and operations.

BLIS MEDIA LIMITED

Blis is an advertising technology company that uses location data from mobile devices to enable advertising agencies, marketers and publishers to identify and target audiences based upon location insights.

Blis was founded in 2004 by Scottish entrepreneur Greg Isbister. The Companies first invested in the business in 2008 to support its international growth.

Blis today operates worldwide with 24 offices across Europe, North and South America, Asia, South Africa, Australia and New Zealand. Its technology has been used by a variety of international brands including Jaguar, Sony, General Electric and Mastercard.

WATCHFINDER.CO.UK LIMITED

Watchfinder is an online platform which enables people to buy and sell luxury second-hand watches. The business was founded in 2002 by Stuart Hennell and Lloyds Amsdon.

The ProVen VCTs invested £3.2 million in Watchfinder in 2014 to scale its online platform and expand its footprint of physical retail stores. The Companies supported the business as it grew over the next four years before its acquisition by Richemont Holdings UK Limited, a subsidiary of the Swiss luxury group Compagnie Financière Richemont SA.

During the course of the Companies' holding period, turnover of the business trebled to £86.7m in the financial year ended 31 March 2017 and Watchfinder launched five retail stores in the UK.

PART 1

THE OFFER

1. REASONS FOR THE OFFER

Reasons for the Offer

The Directors believe that the Offer will benefit both new and existing Shareholders by enabling the Companies to:

- take full advantage of the strong flow of attractive investment opportunities currently being seen by the Manager;
- increase the diversification of the investment portfolio; and
- reduce the annual operating cost per Ordinary Share, by spreading the fixed operating costs of each Company over a larger asset base.

The net proceeds of the Offer will be applied in accordance with each Company's investment policy, which is set out below.

2. INVESTMENT POLICIES

The Companies have identical investment policies, as described below.

Investment objective

The Companies' investment objective is to achieve long term returns greater than those available from investing in portfolios of quoted companies, by investing in:

- portfolios of carefully selected Qualifying Investments in small and medium sized unquoted companies with excellent growth prospects;
- portfolios of non-Qualifying Investments permitted for liquidity management purposes;

within the conditions imposed on all VCTs, and to minimise the risk of each investment and the portfolios as a whole.

The investment policy covers several areas as follows:

Qualifying investments

The Companies seek to make investments in VCT-qualifying companies with the following characteristics:

- a strong, balanced and well-motivated management team with a proven track record of achievement;
- a defensible market position;
- good growth potential;
- an attractive entry price for the Companies; and

- a clearly identified route for a profitable realisation within a three to four year period.

The Companies invest in companies at various stages of development, including those requiring capital for expansion, but not in start-ups or in management buy-outs or businesses seeking to use funding to acquire other businesses. Investments are spread across a range of different sectors.

Other investments

Funds not invested in Qualifying Investments may be invested in non-Qualifying Investments permitted for liquidity management purposes, which include cash, alternative investment funds ("AIFs") and UCITS which may be redeemed on no more than 7 days' notice, or ordinary shares or securities in a company that are acquired on a regulated market.

Borrowings

It is not the Companies' intention to have any borrowings. Each Company, does, however, have the ability to borrow a maximum amount equal to the nominal capital of the Company and its distributable and undistributable reserves.

Maximum exposures

No investment will constitute more than 15% of that Company's portfolio by value at the time of investment.

Any material changes in investment policy would require Shareholders' approval in accordance with the Listing Rules.

3. ASSET ALLOCATION POLICY

Over the three years following the Offer, a proportion of the funds raised will be progressively invested in Qualifying Investments with the objective that ultimately at least 85% of each Company's assets will be invested in Qualifying Investments. Initially, whilst suitable Qualifying Investments are being identified, the funds will be invested in permitted non-Qualifying Investments. This portfolio will be progressively realised in order to fund investments in Qualifying Investments. The portion of each Company's portfolio not invested in Qualifying Investments will be used to meet the annual running costs of that Company and to provide liquidity. For accounting periods beginning on or after 6 April 2018 the Companies must have invested at least 30% of all new funds that they have raised and allotted in Qualifying Investments within 12 months of the end of the accounting period in which the Company issued the shares.

It is expected that after investing 85% of their assets in Qualifying Investments, the PGI VCT portfolio will have at least 51 investments (assuming full subscription) and the ProVen VCT portfolio will have at least 51 investments (assuming full subscription), to provide

diversification and risk protection. Under current VCT legislation a Qualifying Company's gross assets may not exceed £15 million immediately before and £16 million immediately after the investment, and it must have fewer than 250 employees, prior to investment (500 in the case of a KIC). The Qualifying Company cannot receive more than £12 million (£20 million if the company is deemed to be a KIC) of Risk Finance State Aid (including from VCTs) over the company's lifetime and generally be no more than 7 years old (10 years for a KIC). Older companies may also be Qualifying Companies where previous Risk Finance State Aid was received by the company within 7 years (10 years for KICs) or where the company is entering a new market and a turnover test is satisfied. Funds received from an investment by a VCT cannot be used to acquire another existing business or trade. No single investment will represent more than 15% of a Company's investments at the time the investment is made.

4. RISK MANAGEMENT POLICY

With many years' experience of managing the risks involved in investing in unquoted companies, Beringea has implemented a number of measures designed to manage risk to the extent possible given the investment strategy. Key risk management features include:

- *Broad portfolio of companies* – The Companies will invest in a broad portfolio of different companies, thereby reducing the potential impact of poor performance by any individual investment;
- *Stage of investment* – The Companies will invest mainly in established companies to provide capital for expansion;
- *Rigorous investment process* – Beringea has established rigorous procedures for reviewing and approving potential investments, as described below, aimed at ensuring a high standard of investment decision-making;
- *Close monitoring of investments / Position on the board of the company* – Beringea will closely monitor the performance of all investments in order to identify any problems and to enable it to take swift corrective action, including in certain circumstances the replacement of under-performing managers. Generally, one of Beringea's investment managers will be appointed to the board of each investee company; and
- *Control over key decisions by investee companies* – Beringea will negotiate detailed legal agreements with each investee company, giving it influence over the development of the business.

5. CO-INVESTMENT POLICY

In order to ensure that investment opportunities are apportioned fairly between the Companies, their allocation is governed by the terms of a co-investment agreement. This broadly provides that VCT Qualifying Investments which meet the Companies' investment strategies will be apportioned to the Companies in the proportion of the amount which needs to be invested for compliance with the VCT Rules. The allocation will be impacted by a number of factors, including the chronological order in which funds were raised and disposals achieved from the portfolio. The amount which is apportioned to each VCT will be subject to certain restrictions in order to ensure good portfolio diversification.

6. THE MANAGER

The Manager

The Companies are managed by Beringea, an award winning, specialist venture capital firm which manages more than £185 million of VCT assets. Beringea has over 25 years experience of managing investments in unquoted companies and has managed the Companies since they were launched, in 2001 in the case of PGI VCT and in 2000 in the case of ProVen VCT. Beringea is part of an international fund management group which manages more than \$450 million of venture capital assets. Further details of the investment management agreements (as amended) between Beringea and the Companies are set out in Part 6 of the Registration Document.

Investment Process

Beringea has used the experience gained over its 25-plus year history to develop a rigorous investment process designed to ensure the highest standard of investment decision making. The first stage of this is to select a small proportion of the large number of investment opportunities received by Beringea for further investigation. All of these opportunities are then subjected to a thorough due diligence investigation, comprising a review of the company's management, the market in which the company operates, its competitive position within the market and the opportunities and risks facing the business. The due diligence process usually involves detailed market research, including interviews with customers and suppliers, as well as building and reviewing financial models. Beringea may also appoint specialist professional advisers, such as accountants and market research consultants, to assist it with its investigation.

If there is a satisfactory outcome to the due diligence process, a formal proposal will be submitted to Beringea's investment committee for consideration. The investment committee has full discretion to make investment decisions on behalf of the Companies.

Post Investment Management

Once an investment has been made, Beringea uses the experience of its investment management team to add as much value as possible to the investee company. It also monitors all investments closely to ensure that any problems are identified at an early stage, so that appropriate action can be taken swiftly if necessary. The key steps it takes to achieve this will normally include the following:

- appointing one of Beringea's investment team to the board of investee companies;
- attending regular board meetings, helping to develop strategy, sharing experience from a wide variety of different unquoted companies, making introductions to other portfolio companies in order to create business opportunities and advising in a variety of different areas;
- ensuring good corporate governance;
- reviewing regular management accounts in order to identify potential issues or opportunities;
- having the right to approve key strategic decisions, including the adoption of budgets, major investments and recruitment of senior personnel;

- having the right, in certain circumstances, to replace under-performing managers; and
- appointing an appropriate chairman who can bring additional skills and experience to the board.

As an investment matures, Beringea is proactive about identifying opportunities for a profitable realisation in order to realise capital gains, which may be distributed to Shareholders in accordance with the Companies' dividend policies.

9. SHAREHOLDER BENEFITS

Target return

The Companies aim to achieve long-term returns greater than those available from investing in a portfolio of quoted companies. The annual rate of return to investors in ProVen VCT's original ordinary share issue from launch in 2000 to 31 August 2018 (the latest date to which results have been announced) assuming initial income tax relief of 20% was 5.0% p.a., although this is not a guide to future returns from an investment in ProVen VCT. The annual rate of return to investors in PGI VCT's original ordinary share issue from launch in 2001 to 31 August 2018 (the latest date to which results have been announced) assuming initial income tax relief of 20% was 6.4% p.a., although this is not a guide to future returns from an investment in PGI VCT.

Dividends

The Companies have a target of paying dividends each year which will equate to a yield of approximately 5% of net asset value. The Boards believe that this target is consistent with the NAV remaining broadly stable over time, although this will depend on the returns achieved by each Company's investments and cannot be guaranteed. The Companies may pay a special dividend in addition to the target 5% yield in the event of there being a realisation, or series of realisations, from the portfolio which results in an exceptionally large gain. Since the current dividend policy was adopted for the year ended 28 February 2013, the average annual dividend yield has been 6.3% for ProVen VCT and 7.5% for PGI VCT. For the year ending 28 February 2019, special interim dividends of 25.25p per Ordinary Share for ProVen VCT and 4.5p per Ordinary Share for PGI VCT were paid on 30 November 2018. These special interim dividends broadly equate to the realised capital profits per Ordinary Share on the realisations of Watchfinder and Chargemaster and represent a cash return of 25.3% and 6.2% on the opening NAV per Ordinary Share at 1 March 2018 for ProVen VCT and PGI VCT respectively.

Dividend payments will, however, depend on the amount and timing of profits realised from the sale of investments, which cannot be guaranteed. There is no certainty that any dividends will be paid.

Existing portfolio of investments

By investing under the Offer, Investors will immediately gain access to a more mature portfolio of investments than they would by investing in a new VCT share class. This increases the potential for early realisations from the portfolio, enhancing each Company's ability to pay dividends on the Ordinary Shares.

Tax benefits

Investors in a VCT are entitled to a range of significant tax benefits, including an income tax rebate of 30% of the amount invested. This means that someone who invests £10,000, for example, will be entitled to an income tax rebate of £3,000.

Another major tax benefit is that dividends paid by a VCT are not subject to income tax. This means that they are a particularly attractive source of income for higher rate tax payers.

These tax benefits significantly enhance the value to Investors of the investment returns achieved by the Companies. They are available on total VCT investments of up to £200,000 per person in each tax year. The tax rebate cannot exceed the amount which reduces an Investor's tax liability to nil.

Claiming the tax relief

Certificates to enable an Investor to claim tax relief on their investment will be posted within 15 business days of the New Ordinary Shares being allotted. An Investor will then have two options for claiming the tax relief:

- (a) writing to their HM Revenue & Customs office to ask for their PAYE tax code to be adjusted, or
- (b) waiting until the end of the tax year and completing the appropriate section on the self-assessment form.

Dividend Reinvestment Scheme

The Companies each operate a dividend reinvestment scheme which enables Shareholders, should they so wish, to reinvest any future cash dividends in Ordinary Shares. The rules of the dividend reinvestment scheme are set out in Part 5. If an Investor wishes to participate in this scheme, they should complete Section 7 of the Application Form. Dividend reinvestment enables Shareholders to increase their holding in a Company without incurring dealing costs, issue costs or stamp duty. Subject to the normal limits on tax relief for investment in VCTs, these Ordinary Shares should qualify for VCT tax reliefs that are applicable to subscription for new VCT shares.

Communicating with Shareholders

The Directors and the Manager believe strongly in the importance of good communication with Shareholders, and provide information about the progress of the Companies in a number of different ways:

- the Annual Report and Accounts of each Company are made available to all of its Shareholders, normally in June each year;
- the half-year report of each Company is made available to all of its Shareholders, normally in October each year;
- E-mail updates, containing news about each Company and its portfolio companies, are sent to Shareholders on an occasional basis. If an Investor would like to receive information by e-mail, they should enter their e-mail address at the appropriate place on the Application Form;
- Information about the Companies is also made available on the ProVen VCTs' website (www.provenvcts.co.uk), which is updated regularly.

All Shareholders are also invited to a Shareholder event each year, at which a number of portfolio companies give presentations. These events also allow Shareholders to meet the Directors and members of the investment management team.

Shareholder Rewards

From time to time some of the Companies' portfolio companies are able to make special offers or discounts available to Shareholders. Shareholders are invited to subscribe for update emails containing current details and codes. These offers are only available to current shareholders in the Companies and may be changed or withdrawn at any time.

Share Buyback Policy

The Directors intend to ensure that Shareholders who wish to sell their Ordinary Shares are able to do so, by operating a share buyback policy

under which each Company will buy back its Ordinary Shares at a 5% discount to net asset value. The Companies have operated a policy of buying back shares since July 2004. The number of Ordinary Shares that either Company will buy back in any year will be limited to 14.99% of the number of its Ordinary Shares in issue and may be restricted if necessary to maintain an appropriate level of liquidity in that Company.

Discount for Early Investment and for Existing Shareholders

Applicants (and their spouses) who had an existing shareholding in one of the ProVen VCTs on 11 January 2019, and whose valid Application forms part of the first £5 million of valid Applications for each Company or is received by 1 p.m. on 15 February 2019 if £5 million of valid Applications for that Company have not been received by this date, will be entitled to additional New Ordinary Shares with an aggregate subscription price equivalent to 2% of the amount subscribed.

All other Applicants whose valid Application forms part of the first £5 million of valid Applications for each Company or is received by 1 p.m. on 15 February 2019 if £5 million of valid Applications for that Company have not been received by this date, will be entitled to additional New Ordinary Shares with an aggregate subscription price equivalent to 1% of the amount subscribed.

The subscription price of the Additional Shares will be met by the Manager.

10. OFFER SELECTION

The minimum aggregate Investment per Investor is £5,000. Applicants may apply to invest in either ProVen VCT or PGI VCT, or both. Applicants who wish to invest in both ProVen VCT and PGI VCT may apply to invest different amounts in each VCT but in this case the minimum Application amount in each Company is £2,500. An Applicant can also choose whether, in the event that an Offer for which they have applied has closed at the point that their application is processed, the relevant Application monies should be either reallocated to the Offer that remains open, or returned. The Application Procedure (on page 51 of this document) contains further details of the selection process and the options available for the return or reallocation of subscription monies.

11. FEES AND EXPENSES

Annual Management Fee

The Manager is entitled to receive an annual management fee from each Company equal to 2% of the NAV of that Company, payable monthly in arrears.

The Manager may charge arrangement fees, in line with industry practice, to companies in which it invests. It may also receive directors' fees or monitoring fees from investee companies.

Administration and Advisory Arrangements

Beringea LLP provides certain administration, company secretarial and financial advisory services and services in connection with share repurchases to ProVen VCT, for a current annual fee of £61,090 (plus VAT if applicable).

Beringea LLP provides certain administration, company secretarial and financial advisory services and services in connection with share

repurchases to PGI VCT, for a current annual fee of £54,362 (plus VAT if applicable).

Annual running costs

The annual running costs of the Companies, being the Directors' fees, professional fees, the annual fees payable to the Manager and the costs incurred by the Company in the ordinary course of business (including irrecoverable VAT but excluding any performance related fees and trail commissions payable to intermediaries) are capped. The cap is 3.25% of net assets in the case of ProVen VCT and 3.6% of net assets in the case of PGI VCT. Any costs above this level are borne by the Manager, by way of a reduction in its fees.

The annual running costs of ProVen VCT for the year to 28 February 2018 were 2.6% of the net asset value of ProVen VCT at the year end. The annual running costs of PGI VCT for the year to 28 February 2018 were 2.6% of the net asset value of PGI VCT at the year end.

Performance Fees

In line with normal VCT practice, the Manager is entitled to receive performance fees in relation to the Ordinary Shares in order to align the interests of the Manager as closely as possible with those of the Investors and to encourage and reward exceptional investment performance. The performance fee structure is designed to encourage significant payments to Investors by means of tax-free dividends, as well as capital growth. Further details of the performance fee structure for each Company are set out below.

The NAV used in the Pricing Formula for each allotment of New Ordinary Shares will include a provision for any potential performance fees payable by the relevant Company, calculated in accordance with each Company's accounting policies. However, as the performance fee will be calculated based on the audited results at the relevant financial year end, the actual performance fee paid may be greater than, or less than, the amount provided.

ProVen VCT

The Manager is entitled to receive a performance incentive fee in relation to each ProVen Respective Offer if, at the end of a financial year, the relevant ProVen Respective Offer Performance Value exceeds the relevant ProVen Respective Offer Hurdle. In this event the performance incentive fee per ProVen Respective Offer Share will be equal to 20 per cent of the amount by which each such ProVen Respective Offer Performance Value exceeds the relevant ProVen Respective Offer Initial Net Asset Value per Share, less the aggregate amount of any performance incentive fee per ProVen Respective Offer Share already paid in respect of that ProVen Respective Offer in relation to previous financial years starting after 29 February 2012 (which shall not include ProVen Residual PIF).

The ProVen Respective Offer Performance Value in respect of the relevant financial year end is the sum of (i) the audited net asset value per ProVen Ordinary Share or Equivalent ProVen Ordinary Share for a ProVen Respective Offer at that date, (ii) ProVen Respective Offer Cumulative Dividends, (iii) all performance fees per ProVen Ordinary Share or Equivalent ProVen Ordinary Share paid by the shareholders of the ProVen Respective Offer in relation to financial years starting after 29 February 2012, and (iv) any ProVen Residual PIF Adjustment where relating to that ProVen Respective Offer (whether relating to that or any previous financial year).

If at the end of a financial year, the relevant ProVen Respective Offer Performance Value is less than or equal to the ProVen Respective Offer Hurdle, no performance fee will be payable on such ProVen Respective Offers in respect of that financial year.

The performance fee per ProVen Respective Offer Share payable for a financial year will be reduced, if necessary, to ensure that i) the cumulative performance fee per ProVen Respective Offer Share payable to the Manager in respect of a ProVen Respective Offer does not exceed 20 per cent. of the relevant ProVen Respective Offer Cumulative Dividends; and ii) the audited net asset value per ProVen Ordinary Share or Equivalent ProVen Ordinary Share at the relevant financial year end plus the relevant ProVen Respective Offer Cumulative Dividends plus any ProVen Residual PIF Adjustment relating to that Respective Offer is at least equal to the relevant ProVen Respective Offer Hurdle.

The Manager also receives a performance fee linked to the profit achieved on the disposal of two of ProVen's investments, namely Espresso Group Limited and Think Limited (known as the "ProVen Residual PIF"). This performance fee will be equal to 20% of the aggregate profit realised on the sale of Espresso Group Limited and Think Limited, subject to a maximum fee of £673,000 (being 20% of the aggregate unrealised profit on these investments as at 31 August 2011). Espresso Group was sold on 1 November 2013 and Think Limited was sold on 1 November 2018. To date, the Manager has been paid a performance incentive fee of £642,000 in respect of these realisations. There is the potential of a further ProVen Residual PIF, up to a maximum amount of £31,000, dependent on the earn-out in relation to the disposal of Think Limited.

All fees paid under the performance incentive arrangements will be inclusive of VAT, if applicable.

The performance fee payable to Beringea by ProVen VCT in respect of the financial year ended 28 February 2018 was £1.1m.

At the date of this Document, a performance fee of £5.8 million has been accrued in respect of the financial year ending 28 February 2019. The actual performance fee, if any, will be calculated based on the audited results at 28 February 2019 and may be greater than, or less than, the amount provided for at the date of this Document.

PGI VCT

The Manager is entitled to receive a performance incentive fee in relation to each PGI Respective Offer providing that, at the end of a financial year, the relevant PGI Respective Offer Performance Value exceeds the relevant PGI Respective Offer Hurdle. In this event the performance incentive fee per PGI Respective Offer Share will be equal to 20 per cent of the amount by which each such PGI Respective Offer Performance Value exceeds the relevant PGI Respective Offer Initial Net Asset Value per Share, less the aggregate amount of any performance incentive fee per PGI Respective Offer Share already paid in respect of that PGI Respective Offer in relation to previous financial years starting after 29 February 2012.

The PGI Respective Offer Performance Value in respect of the relevant financial year end is the sum of (i) the audited net asset value per PGI Ordinary Share for a PGI Respective Offer at that date, (ii) PGI Respective Offer Cumulative Dividends, and (iii) all performance fees per PGI Ordinary Share paid by the shareholders of the PGI Respective Offer in relation to financial years starting after 29 February 2012.

The PGI Respective Offer Hurdle is the greater of (i) 1.25 times the PGI Respective Offer Initial Net Asset Value per Share and (ii) the PGI Respective Offer Initial Net Asset Value per Share increased by the Bank of England base rate plus one per cent. per annum (compound) from:

- 31 August 2012, in respect of the Original PGI Offer; or
- The date of the first allotment of PGI Ordinary Shares under each PGI Subsequent Offer in respect of all PGI Subsequent Offers.

If at the end of a financial year, the relevant PGI Respective Offer Performance Value is less than or equal to the PGI Respective Offer Hurdle, no performance fee will be payable for such PGI Respective Offers in respect of that financial year.

The performance fee per PGI Respective Offer Share payable in relation to a PGI Respective Offer for a financial year will be reduced, if necessary, to ensure that i) the cumulative performance fee per PGI Respective Offer Share payable in respect of a PGI Respective Offer does not exceed 20 per cent. of the relevant PGI Respective Offer Cumulative Dividends; and ii) the cumulative performance fee per PGI Respective Offer Share payable in respect of a Respective Offer does not exceed 50 per cent. of the amount by which the PGI Relevant Respective Offer Performance Value exceeds the relevant PGI Respective Offer Hurdle, and iii) the audited net asset value per PGI Ordinary Share at the relevant financial year end plus the relevant PGI Respective Offer Cumulative Dividends is at least equal to the relevant PGI Respective Offer Hurdle.

All fees paid under the performance incentive arrangements will be inclusive of VAT, if applicable.

The NAV per PGI Ordinary Share used in the Pricing Formula for each allotment of New PGI Ordinary Shares will include a provision for any potential performance fees payable by the Company to the Manager, calculated in accordance with the Company's accounting policies. However, as the performance fee will be calculated based on the audited results at the relevant financial year end, the actual performance fee paid may be greater than, or less than, the amount provided in PGI's previously announced NAVs.

The performance fee payable to Beringea by PGI VCT in respect of the financial year ended 28 February 2018 was £1.1m.

At the date of this Document, a performance fee of £0.5 million has been accrued in respect of the financial year ending 28 February 2019. The actual performance fee, if any, will be calculated based on the audited results at 28 February 2019 and may be greater than, or less than, the amount provided for at the date of this Document.

Launch Costs

Intermediaries authorised by the FCA offering investment advice to their clients ("Financial Advisers") are not permitted to receive commission from providers of investment products. Remuneration for their services now has to come from fees charged to their clients. The Companies have agreed to facilitate the payment of initial fees to Financial Advisers, by accepting instructions from an Investor to pay the amount of the fee agreed by them to their Financial Adviser, together with any applicable VAT ("Adviser Charge"), out of the amount a Company receives from the Investor. The number of New Ordinary Shares issued to the Investor will depend on the amount of the fee to be facilitated by each Company, as per the Pricing Formula

set out on page 28. Investors who wish a Company to facilitate the payment of a fee in this manner should complete Section 5(i) of the Application Form. The amount payable to the Financial Adviser is inclusive of VAT, where applicable. Accordingly, investors will indirectly bear the costs of the Offer through the application of the Pricing Formula which determines the Offer price paid for the New Ordinary Shares and includes an allowance for a Promoter's fee of 3.0% and Adviser Charges (if any).

These rules do not apply to authorised intermediaries who do not offer advice to their clients ("Execution Only Brokers"), who continue to be able to receive commission, subject to any future changes in the rules and regulations.

For Applications received through Execution Only Brokers, the Companies will pay the Manager a fee of 3.0% of the gross funds raised through these intermediaries, less any discount for early investment or for existing Shareholders in the ProVen VCTs. The Companies will also pay an initial commission of up to 2.5% of the gross investment to the intermediaries, unless such commission is waived by the Execution Only Broker. Execution Only Brokers may agree to waive all or part of the initial commission in respect of an application. If this is the case, additional New Ordinary Shares will be allotted to the Investor and the waived commission will be used to satisfy the subscription price of such additional New Ordinary Shares.

For Applications directly from Investors, the Companies will pay the Manager a fee of 5.5% of the gross funds raised, less any discounts for early investment and for existing shareholders in the ProVen VCTs.

The Manager may agree to reduce its Promoter's Fee (in whole or in part) in respect of any specific Investors or group of Investors.

Investors should be able to claim initial tax relief on the full amount of their investment, subject to the normal rules on eligibility for tax relief.

Out of the Promoters Fees the Manager will be responsible for paying all the costs of the Offer, including professional fees and marketing expenses. Any trail commission payable to Execution Only Brokers will be paid by the Companies. The Manager's fee will be reduced by the aggregate subscription amount for the Additional Shares issued to Investors whose valid Applications form part of the first £5 million of valid Applications for each Company or is received by 1p.m. on 15 February 2019 if £5 million of valid Applications for that Company have not been received by this date.

The maximum amount payable by each Company in respect of Offer costs will, therefore, be 5.5% of the gross proceeds of the Offer. The maximum net proceeds of the Offer for each Company will be £38,800,000 (assuming full subscription and Offer costs of £1,200,000 comprising a Promoter Fee of 3.0% and no Adviser Charge).

12. OTHER INFORMATION

The Offer

Each Company is seeking to raise up to £30 million, with an over allotment facility of up to a further £10 million each through the issue of New Ordinary Shares, which will rank *pari passu* in all respects with the existing Ordinary Shares, including in respect of dividends.

Pricing of the Offer

The number of New Ordinary Shares to be issued to each Investor will be calculated using the following Pricing Formula, which is consistent

with the agreement with the Manager on launch costs set out above, and which ensures that there is no reduction in the net asset value of the existing Ordinary Shares as a result of the Offer:

Number of New Ordinary Shares = (Amount subscribed, less: (i) Promoter's Fee and (ii) Adviser Charge (if any) or Execution Only Broker initial commission (unless waived))/(latest published NAV*) rounded down to the nearest whole number of New Ordinary Shares.

The Promoter's Fee is:

- (a) for Applications received through Financial Advisers or Execution Only Brokers, 3.0% of the investment amount less any discounts for early investment and existing shareholders in the ProVen VCTs as described on page 8 of this document; and
- (b) for Applications received direct from Investors, 5.5% of the investment amount less any discounts for early investment and existing shareholders in the ProVen VCTs.

The Manager may agree to reduce its Promoter's Fee (in whole or in part) in respect of any specific Investors or group of Investors.

Investors should be able to claim initial tax relief on the full amount of their investment, subject to the normal rules on eligibility for tax relief.

* The NAV used in the calculation of the number of New Ordinary Shares to be issued by each Company will be each Company's NAV most recently announced to the London Stock Exchange, less the amount of any dividend to be paid for which the record date is prior to the relevant allotment date.

The NAV as at the date of this document, being the respective NAV of each Company as at 31 August 2018 adjusted for the special interim dividend paid by each Company on 30 November 2018, is 83.65p for ProVen VCT and 69.8p for PGI VCT. A new NAV for either Company may be announced to the London Stock Exchange during the Offer. The Companies normally announce their latest NAV on a quarterly basis, although they may announce new NAVs between the normal quarterly dates if there is a material movement. The next NAV announcements following the date of this document are expected to be in January 2019. Such announcements may result in an upwards or downwards movement in either NAV and, therefore, in the denominator of each Pricing Formula. Each NAV may change between the date on which an Investor's Application Form is posted and the date on which New Ordinary Shares in respect of that Application Form are allotted.

Listing on the London Stock Exchange

Applications will be made to the UK Listing Authority for the New Ordinary Shares issued under the Offer to be admitted to the premium segment on the Official List and to the London Stock Exchange for those New Ordinary Shares to be admitted to trading on its main market for listed securities.

Applications for New Ordinary Shares

Applications for the New Ordinary Shares will be payable in full by cheque, bankers draft or BACS transfer on application. **Post-dated cheques will not be accepted and will be returned to the Investors at the postal address specified in the Application Form.** Applications under the Offer will be processed upon receipt.

Where payment is made by BACS transfer the application will not be treated as being received by the Receiving Agent until funds are received in full by the Client Account Administrator. Multiple subscriptions by Investors are permitted. The Offer is not underwritten.

The subscription list for the Offer will open on 11 January 2019 and close at 1.00 pm on 5 April 2019 for the 2018/2019 Offer and at 1.00 pm on 30 April 2019 for the 2019/2020 Offer (or on any earlier date on which the Offer is fully subscribed), save that the Directors reserve the right to bring forward or extend the closing date of the 2019/2020 Offer to a date no later than 10 January 2020. The results of the Offer will be announced to the London Stock Exchange through a Regulatory Information Service provider authorised by the Financial Conduct Authority. There is no minimum subscription for the Offer to proceed.

In the event that applications are received in excess of the maximum subscription under the Offer, the Directors reserve the right to use their absolute discretion in the allocation of successful applications.

New Ordinary Shares will be allotted and issued in respect of valid applications received for the 2018/2019 Offer on 1 March 2019, 29 March 2019 and 5 April 2019 and any other date prior to 5 April 2019 on which the Directors decide, and for the 2019/2020 Offer on 8 April 2019 and 30 April 2019, and any other dates after 5 April 2019 and prior to the close of the Offer on which the Directors decide. Details of such allotments will be announced through a Regulatory Information Service provider by no later than the business day following the allotment. Share certificates (where applicable) will be posted to Shareholders within 15 business days of each allotment. Dealings may commence before such announcement is made.

The New Ordinary Shares will be issued on a fully paid up basis in registered form and evidence of title will be through possession of a share certificate in the Shareholder's name; alternatively, New Ordinary Shares may be held in an account through the CREST system. Each Company will apply for the New Ordinary Shares to be admitted to CREST and it is expected that the New Ordinary Shares will be so admitted, and accordingly enabled for settlement in CREST as soon as practicable after Admission has occurred. Therefore, settlement of transactions in the New Ordinary Shares following Admission may take place within the CREST system if Shareholders wish.

The Offer may not be withdrawn after dealings in the New Ordinary Shares have commenced. In the event of any requirement for either Company to publish a supplementary prospectus, subscribers who have yet to be entered into the Companies' registers of members will be given two business days to withdraw their subscription. Investors should note, however, that in respect of New Ordinary Shares that have been unconditionally allotted, such withdrawal rights are a matter of law that is yet to be tested in the courts of England and Wales and Investors should, therefore, rely on their own legal advice in this regard. Notification of withdrawal may be given by e-mail to provenvcts@beringea.co.uk or by telephone on 020 7845 7820.

Investors wishing to subscribe for New Ordinary Shares may do so by completing the Application Form at the end of this document. Details of how to complete the Application Form are set out under the heading "Application Procedure" on pages 51 to 53 of this document.

Investor Profile

A typical Investor will be a UK taxpayer who is aged 18 or over, who is professionally advised and already has a portfolio of non-VCT investments such as unit trusts, OEICs, investment trusts and direct shareholdings in listed companies. The Investor should be comfortable with the risk factors set out at the front of this document and be willing to retain the investment for at least five years.

Before deciding whether to apply for New Ordinary Shares it is recommended that potential Investors consult an authorised independent Financial Adviser.

Minimum and Maximum Investment

The minimum aggregate Investment per Investor is £5,000. Applicants may apply to invest in either ProVen VCT or PGI VCT, or both. Applicants who wish to invest in both ProVen VCT and PGI VCT may apply to invest different amounts in each VCT but in this case the minimum Application amount in each Company is £2,500. There is no maximum investment although tax reliefs are only available on a maximum investment of £200,000 per individual in all VCTs in any one tax year. A husband and wife can each invest up to £200,000 in any one tax year with each enjoying the tax reliefs.

Commission for Execution Only Brokers

Execution Only Brokers will be paid an initial commission by the Companies of up to 2.5% on the amount invested by their clients. Additionally, provided that the Execution Only Broker continues to act for the client and the client continues to be the beneficial owner of the New Ordinary Shares, the relevant Company will pay annual trail commission to Execution Only Brokers, normally at the rate of 0.5% of the amount invested by the client, for up to 5 years, subject to any future changes in the rules and regulations. The first payment of trail commission in respect of the New Ordinary Shares is expected to be in August 2020 in respect of the financial year to 29 February 2020.

Execution Only Brokers may agree to waive all or part of the initial commission in respect of an application. If this is the case, additional New Ordinary Shares will be allotted to the Investor and the waived commission will be used to satisfy the subscription price of such additional New Ordinary Shares. Execution Only Brokers must indicate in Section 11 of the Application Form the amount they wish to waive.

PART 2

TAX CONSIDERATIONS

FOR INVESTORS

Tax Position of Investors

The following is only a summary of the law concerning the tax position of individual investors in VCTs. Potential Investors who are in any doubt about the taxation consequences of investing in a VCT are recommended to consult an appropriate professional adviser.

Tax Reliefs

The tax reliefs set out below are available to individuals aged 18 or over who subscribe for New Ordinary Shares under the Offer. Whilst there is no specific limit on the amount of an individual's acquisition of shares in a VCT, tax reliefs will only be given to the extent that the total of an individual's subscriptions or other acquisitions of shares in VCTs in any tax year do not exceed £200,000. Investors who intend to invest more than £200,000 in VCTs in any one tax year should seek professional advice.

(a) Income tax

(i) Relief from income tax on investment

Income tax relief at the rate of 30% will be available on subscriptions for up to a maximum of £200,000 in any tax year. This relief is limited to the amount which reduces the Investor's income tax liability to nil.

The effect of this relief for an Investor subscribing £10,000 for New Ordinary Shares is shown below:

	No VCT tax relief	30% income tax relief
Initial investment	£10,000	£10,000
30% income tax relief	–	(£3,000)
Effective investment cost	£10,000	£7,000

Tax relief on subscriptions for shares in a VCT is restricted where, within six months (before or after) of that subscription, the investor had disposed of shares in the same VCT or in a VCT which at any time is known to be seeking a merger with that VCT. Investments to be used as security for or financed by loans may not qualify for relief, depending on the circumstances.

(ii) Dividend relief

An Investor who acquires VCT shares in a given tax year with a value of up to £200,000 will not be liable to income tax on dividends paid by the VCT on those shares.

(iii) Purchasers in the market

An individual purchaser of existing VCT shares in the market will be entitled to claim dividend relief (as described in paragraph (a) (ii) above) but not relief from income tax on investment (as described in paragraph (a) (i) above).

(iv) Withdrawal of relief

Relief from income tax on a subscription for VCT shares will be withdrawn if the VCT shares are disposed of (other than between spouses) within five years of issue or if the VCT loses its approval within this period.

(b) Capital gains tax

(i) Relief from capital gains tax on the disposal of shares

A disposal by an Investor of their New Ordinary Shares will give rise to neither a chargeable gain nor an allowable loss for the purposes of UK capital gains tax. The relief is limited to the disposal of VCT shares acquired within the limit of £200,000 for any tax year.

(ii) Purchasers in the market

An individual purchaser of New Ordinary Shares in the market will be entitled to claim relief from capital gains tax on disposal (as described in paragraph (b)(i) above).

Obtaining Tax Reliefs

The Company will provide to each Investor a certificate which the Investor may use to claim income tax relief, either by obtaining from HMRC an adjustment to their tax coding under the PAYE system or by waiting until the end of the tax year and using their tax return to claim relief.

Investors not Resident in the UK

Investors not resident in the UK should seek professional advice as to the consequences of making an investment in a VCT as they may be subject to tax in other jurisdictions as well as in the UK.

Withholding Taxation

No taxation will be withheld at source on any income arising from the New Ordinary Shares and the Company assumes no responsibility for such withholding.

Withdrawal of Approval

If a company which has been granted approval as a VCT subsequently fails to comply with the conditions for approval, approval as a VCT may be withdrawn or treated as never having been given. In these circumstances, relief from income tax on the initial investment is repayable unless loss of approval occurs more than five years after the issue of the relevant VCT shares. In addition, relief ceases to be available on any dividend paid in respect of profits or gains in any accounting period ending when VCT status has been lost and any gains on the VCT shares up to the date from which loss of VCT status is treated as taking effect will be exempt, but gains thereafter will be taxable.

VCT status will be withdrawn if, in respect of shares issued on or after 6 April 2014, a dividend is paid (or other forms of distribution or payments are made to investors) from the capital received by the VCT from that issue within three years of the end of the accounting period in which shares were issued to investors.

PART 3

CONDITIONS TO BE MET BY VENTURE CAPITAL TRUSTS

Qualification as a VCT

To qualify as a VCT, a company must be approved as such by HMRC. To obtain such approval it must:

- (a) not be a close company;
- (b) have each class of its ordinary share capital quoted on a regulated market in the EU or European Economic Area;
- (c) derive its income wholly or mainly from shares or securities;
- (d) have at least 70% by value of its investments in shares or securities in Qualifying Investments (this percentage will increase to 80% with effect from 1 March 2020 for the Companies);
- (e) have at least 70% by value of Qualifying Investments in “eligible shares” carrying no preferential rights to assets on a winding up, or any rights to redemption, but which may have certain preferential rights to dividends (investments made before 6 April 2018 from funds raised prior to 6 April 2011 are excluded);
- (f) have at least 10% by value of its Qualifying Investments in any single company or group in “eligible shares” as defined in (e) above;
- (g) not have more than 15% by value of its investments in a single company (other than a VCT or a company which would, if its shares were listed, qualify as a VCT);
- (h) not retain more than 15% of its income derived from shares and securities in any accounting period;
- (i) not make an investment in a company which causes that company to receive more than £5 million of Risk Finance State Aid (including from VCTs) in the twelve months ending on the date of the investment (£10 million if the company is deemed to be a KIC), or a total of more than £12 million (£20 million if the company is deemed to be a KIC) of Risk Finance State Aid (including from VCTs) over the company’s lifetime. A subsequent acquisition by the company of another company that has previously received Risk Finance State Aid can cause the lifetime limit to be exceeded;
- (j) not make an investment in a company whose first commercial sale was more than 7 years prior to date of investment, except where previous Risk Finance State Aid was received by the company within 7 years (10 years for a KIC) or where a turnover test is satisfied;

- (k) no funds received from an investment into a company can be used to acquire another existing business or trade;
- (l) not make a prohibited non-qualifying investment; and
- (m) in relation to shares issued by a VCT on or after 6 April 2014, not return to shareholders any of the capital received by the VCT in relation to those shares issued before the third anniversary of the end of the accounting period during which the subscription for those shares occurs.

Qualifying Investments

A Qualifying Investment consists of shares or securities first issued to the VCT (and held by it ever since) by a company satisfying certain conditions. The conditions are detailed but include that the company must be a Qualifying Company, have gross assets not exceeding £15 million immediately before and £16 million immediately after the investment, apply the money raised for the purposes of a Qualifying Trade within certain time periods and not be controlled by another company. In any twelve month period the company can receive no more than £5 million of Risk Finance State Aid including from VCTs and the Enterprise Investment Scheme (£10 million if the company is deemed to be a KIC). The company must have fewer than 250 full time (or equivalent) employees at the time of making the investment (500 in the case of a KIC). The company cannot receive more than £12 million (£20 million if the company is deemed to be a KIC) of Risk Finance State Aid (including from VCTs) over the company’s lifetime and generally be no more than 7 years old (10 years for a KIC). Older companies may also be Qualifying Companies where previous Risk Finance State Aid was received by the company within 7 years (10 years for KICs) or where the company is entering a new market and a turnover test is satisfied. Funds received from an investment by a VCT cannot be used to acquire another existing business or trade. In certain circumstances, an investment in a company by a VCT can be split into part Qualifying Investment and part non-Qualifying Investment. Investments made on or after 15 March 2018 need to meet the risk-to-capital condition, which requires that the company has a long term growth plan, and that the investment made by the VCT is at risk.

Qualifying Companies

A Qualifying Company must be unquoted (for VCT purposes this includes companies whose shares are traded on the ISDX Growth Market and the Alternative Investment Market) and must carry on a Qualifying Trade. For this purpose certain activities are excluded (such as dealing in land or shares or providing financial services). The Qualifying Trade must either be carried on by, or be intended to be carried on by, the Qualifying Company or by a Relevant Qualifying Subsidiary (see below) at the time of the issue of shares or securities to the VCT (and at all times thereafter). Qualifying Companies need

not be UK resident but must have a permanent establishment in the UK. A company intending to carry on a Qualifying Trade must begin to trade within two years of the issue of shares or securities to the VCT and continue it thereafter.

A Qualifying Company may have no subsidiaries other than Qualifying Subsidiaries which must be more than 50% owned.

A Relevant Qualifying Subsidiary can be a 90% directly held subsidiary of the company invested in, its wholly owned subsidiary, or a 90% held subsidiary of a wholly owned subsidiary.

Approval as a VCT

A VCT must be approved at all times by HMRC. Approval has effect from the time specified in the approval.

A VCT cannot be approved unless the tests detailed above are met throughout the most recent complete accounting period of the VCT and HMRC is satisfied that they will be met in relation to the accounting period of the VCT which is current when the application is made. However, in order to facilitate the launch of a VCT, HMRC may approve a VCT notwithstanding that certain of the tests are not met at the time of application, provided HMRC is satisfied that the tests will be met within certain time limits. In particular, in the case of the tests described at (d) to (e) under the heading "Qualification as a VCT" above, approval may be given if HMRC is satisfied that these will be met throughout an accounting period of the VCT beginning no more than three years after the date on which approval takes effect.

The Directors intend to conduct the affairs of the Company so that it satisfies the conditions for approval as a VCT and that such approval will be maintained. HMRC has granted the Company approval under section 274 ITA as a VCT. The Company intends to comply with section 274 ITA and has retained Philip Hare and Associates LLP to advise it on VCT taxation matters.

Withdrawal of Approval

Approval of a VCT may be withdrawn by HMRC if the various tests set out above are not satisfied. Withdrawal of approval generally has effect from the time when notice is given to the VCT but, in relation to capital gains of the VCT only, can be backdated to not earlier than the first day of the accounting period commencing immediately after the last accounting period of the VCT in which all of the tests were satisfied.

The above is only a summary of the conditions to be satisfied for a company to be treated as a VCT.

Shareholder Authorities

The resolutions passed by ProVen VCT at the annual general meeting held on 11 July 2018 and by PGI VCT at the annual general meeting held on 11 July 2018 included authority to allot the New Ordinary Shares.

Maximum number of shares

The maximum number of New Ordinary Shares to be issued under the Offer is restricted to the maximum amount that each Company is authorised to allot being 76,405,940 in the case of ProVen VCT and 108,005,375 in the case of PGI VCT.

The maximum estimated number of New Ordinary Shares each Company expects to issue under the Offer based on the NAV per Ordinary Share as at the date of this document, assuming the over allotment facility is used in full, a Promoters Fee of 3.0% and no Adviser Charge, is 46,383,741 in the case of ProVen VCT and 55,598,648 in the case of PGI VCT.

Share Rights

The rights and restrictions attaching to the New Ordinary Shares are as follows:

Voting Rights

Each Company has one class of shares: Ordinary Shares.

Subject to any disenfranchisement provided for in the Articles and subject to any special terms as to voting on which any shares may be issued, on a show of hands every holder of Ordinary Shares present in person or by proxy (or, being a corporation present by a duly authorised representative) shall have one vote and, on a poll, every such holder present in person or by proxy shall have one vote for every Ordinary Share of which he or she is the holder.

Dividends and other distributions

Subject to the provisions of the Articles, the Ordinary Shares entitle their holders to receive such dividends as the Directors may resolve to pay pro rata to their respective holdings of Ordinary Shares.

Rights as to capital

Subject to the provisions of the Articles, on a winding up or other return of capital, the net assets of each Company (including any income and/or revenue arising from or relating to such assets) less each Company's liabilities, including fees and expenses of liquidation or return of capital, shall be divided amongst the holders of Ordinary Shares pro rata according to their holdings of Ordinary Shares.

Alteration of share capital

Each Company may from time to time by ordinary resolution:

- (i) Increase its share capital by such sum to be divided into shares of such amounts as the resolution shall prescribe;
- (ii) consolidate and divide all or any of its share capital into shares of a larger amount than its existing shares; and
- (iii) diminish the amount of its capital by the nominal amount of the shares so cancelled.

Subject to the provisions of the 2006 Act, each Company may by special resolution:

- (i) purchase any of its own shares (including any redeemable shares);
- (ii) reduce its share capital or any capital redemption reserve, share premium account or other undistributable reserve in any manner; or
- (iii) sub-divide its shares, or any of them, into shares of a smaller nominal amount (subject, nevertheless, to the provisions of the 2006 Act) and by the same resolution may confer special rights on any of the shares resulting from the sub-division.

Issue of shares

The provisions of Section 561(1) of the 2006 Act (which, to the extent not disapplied pursuant to Section 570(1) of the 2006 Act, confer on Shareholders rights of pre-emption in respect of the allotment of equity securities which are, or are to be, paid up in cash) apply to the share capital of each Company, except to the extent disapplied by each Company in general meeting. Subject to the provisions of the 2006 Act relating to authority, pre-emption rights and otherwise and of any resolution of each Company in general meeting passed pursuant thereto, all unissued shares shall be at the disposal of the Directors and they may allot (with or without conferring a right of renunciation) grant options over or otherwise dispose of them to such persons, at such times and on such terms as they think proper.

Transfer of shares

The shares are in registered form and are freely transferable. All transfers of shares must be effected by a transfer in writing in any usual form or any other form approved by the Directors. The instrument of transfer of a share shall be executed by or on behalf of the transferor and, in the case of a partly paid share, by or on behalf of the transferee. The Directors may refuse to register any transfer of a partly paid share, provided that such refusal does not prevent dealings taking place on an open and proper basis, and may also refuse to register any instrument of transfer unless:

- (i) it is duly stamped (if so required), is lodged with each Company's registrar or at such other place as the Directors may appoint and is accompanied by the certificate for the shares to which it relates and such other evidence as the Directors may reasonably require to show the right of the transferor to make the transfer;
- (ii) it is in respect of only one class of share;
- (iii) the transferees do not exceed four in number; and
- (iv) it does not relate to any shares in respect of which each Company has a lien.

Mandatory bids, squeeze-out and sell-out rules relating to the shares

The City Code on Takeovers and Mergers (the City Code) applies to each Company. Under Rule 9 of the City, if:

- a person acquires an interest in shares in a company which, when taken together with shares already held by him or persons acting in concert with him, carry 30% or more of the voting rights in the company; or
- a person who, together with persons acting in concert with him, is interested in not less than 30% and not more than 50% of the voting rights in the company acquires additional interests in shares which increase the percentage of shares carrying voting rights in which that person is interested, the acquirer and, depending on the circumstances, his concert parties, would be required (except with the consent of the Panel on Takeovers and Mergers) to make a cash offer for the outstanding shares in the relevant company at a price not less than the highest price paid for any interests in its shares by the acquirer or his concert parties during the previous 12 months. Under sections 974 – 991 of the CA 2006, if an offeror acquires or contracts to acquire (pursuant to a takeover offer) not less than 90% of the shares (in

value and by voting rights) to which such offer relates it may then compulsorily acquire the outstanding shares not assented to the offer. It would do so by sending a notice to holders of outstanding shares telling them that it will compulsorily acquire their shares and then, six weeks later, it would execute a transfer of the outstanding shares in its favour and pay the consideration to the company, which would hold the consideration on trust for the holders of outstanding shares. The consideration offered to the holders whose shares are compulsorily acquired under the CA 2006 must, in general, be the same as the consideration that was available under the takeover offer. In addition, pursuant to section 983 of the CA 2006, if an offeror acquires or agrees to acquire not less than 90% of the shares (in value and by voting rights) to which the offer relates, any holder of shares to which the offer relates who has not accepted the offer may require the offeror to acquire his shares on the same terms as the takeover offer. The offeror would be required to give any holder of shares notice of his right to be bought out within one month of that right arising. Sell-out rights cannot be exercised after the end of the period of three months from the last date on which the offer can be accepted or, if later, three months from the date on which the notice is served on the holder of shares notifying them of their sell-out rights. If a holder of shares exercises his/her rights, the offeror is bound to acquire.

Material Interests

The Manager will be paid an annual investment management fee equal to 2% per annum of the aggregate net asset value of each Company. In line with normal VCT practice, the Manager will also be entitled to receive a performance incentive fee from each Company in order to align the interests of the Manager as closely as possible with those of the Investors and to encourage and reward exceptional performance. Further details of these arrangements are set out on pages 26 and 27 of this document. In addition, the Manager will receive aggregate initial fees of between 3.0% and 5.5% of the gross proceeds of the Offer, as set out on page 28. Out of these fees Beringea will be responsible for paying all the costs of the Offer.

Beringea LLP provides certain administration services, financial advisory services and services in connection with share repurchases to the Company, for a current annual fee of £61,090 (plus VAT if applicable) in the case of ProVen VCT and £54,362 (plus VAT, if applicable) in the case of PGI VCT. The fees are increased annually in line with the Retail Prices Index. Further details of the administration agreement (and variations thereto) between Beringea LLP and the Company are set out in Part 6 of the Registration Document.

Malcolm Moss is a partner in Beringea and a member of Beringea's ultimate holding company, Beringea LLC, and Beringea is a party to the material contracts set out in paragraphs 3, 4, 5, 6 and 7 of Part 6 of the Registration Document.

PART 5

RULES OF THE DIVIDEND REINVESTMENT SCHEME OF THE COMPANIES

1. Shareholders on the register of members at the close of business on the relevant record date may elect to receive Shares, credited as fully paid, instead of receiving the dividend in cash for the relevant financial period ("the full cash dividend"). The election may only be made by Shareholders in respect of the whole (and not part only) of their shareholdings and shall, subject to Condition 7, operate as a mandate in respect of all future dividends unless and until the Shareholder gives notice to terminate his or her participation in the Scheme in accordance with the terms of the Scheme.
2. Shareholders may only join the Scheme in respect of any class of Shares if all dividends on all Shares in the Company registered in their name are mandated to the Scheme. The number of Shares held by such Shareholder (a "Participating Shareholder") which are mandated to the Scheme shall be altered immediately following any change to the number of Shares in respect of which such Shareholder is the registered holder as entered onto the register of members of the Company from time to time.
3. The Company shall invest the monies held within the Scheme (being dividends paid on Shares by, or on behalf of, Participating Shareholders) in the subscription of Shares of the same class in the Company. The Company shall not have the discretion to vary such investments and Shareholders may not instruct the Company or the Scheme Administrator to make any other investments.
4.
 - (a) On or as soon as practicable after a day on which any dividend is paid to Shareholders (a "Reinvestment Day"), the funds held by the Company on behalf of each Participating Shareholder shall be applied on behalf of that Shareholder in the subscription for the maximum number of Shares as can be acquired with those funds.
 - (b) The number of Shares issued to a Participating Shareholder pursuant to condition 4(a) above shall be calculated by dividing the aggregate value of the dividends paid on the Shares to which the Participating Shareholder is entitled by the greater of (i) the most recently announced net asset value per Share; less the amount of the dividend and any performance incentive (unless accounted for in the most recently announced net asset value per Share); and (ii) the nominal value per Share.
 - (c) No fractions of Shares will be issued under the Scheme and subject to condition 4(d) below the election may only be made by Shareholders in respect of the whole and not part of their shareholdings. Any balance of cash remaining with the Company after the subscription shall be held by the Company on behalf of the Participating Shareholder to whom it relates and added to the cash available in respect of that Shareholder for the subscription of the relevant class of Shares on the next relevant Reinvestment Day. No interest shall accrue or be payable by the Company in favour of any Shareholder on any such cash balances.
 - (d) The Scheme involves the reinvestment of the whole dividend paid on each shareholding each time a dividend is paid by the Company, together with any cash residue brought forward from the previous dividend. Partial reinvestment of dividends is only permitted by nominees, who need to lodge a Mandate Form for each Reinvestment Day quoting the number of Shares in respect of which their election is made. Shareholders will remain in the Scheme so that all future dividends will be reinvested in the same way, until they give notice in writing to the Scheme Administrator that they wish to terminate their participation in the Scheme.
5. The Scheme Administrator shall on the relevant Reinvestment Day take all necessary steps to ensure that the Participating Shareholders are entered onto the share register of the Company as the registered holders of the Shares issued to them under the Scheme, and that share certificates in respect of such shares issued are posted to the Participating Shareholders at their own risk as soon as is reasonably practical, unless such shares are to be uncertificated.
6. To assist Participating Shareholders with their tax returns, the Scheme Administrator will attach to the new share certificates a Statement of Entitlement, or if shares are held in uncertificated form, a Statement of Entitlement will be sent to a Participating Shareholder separately, detailing the following: (i) the total dividend payable; (ii) the subscription price per Share; (iii) the number of Shares allotted to a Participating Shareholder; (iv) the residual cash balance (if any) representing an entitlement to a fraction of a Share to be carried forward to the next dividend; and (v) the cash equivalent of the Shares issued, together with any such other information as shall be required under the Listing Rules of the UK Listing Authority.

7. Application to join the Scheme can be made at any time by returning a completed Mandate Form. However, Mandate Forms need to have been received by the Scheme Administrator, Link Asset Services, 34 Beckenham Rd, Beckenham, Kent, BR3 4TU at least 20 Business Days prior to the payment of a dividend which is to be reinvested. Mandate Forms received after that date shall be effective in relation to any future dividends in respect of which the Directors offer a dividend reinvestment alternative.
8. If, prior to the day on which the Shares became ex-dividend, a Shareholder has sold all or some of his or her holdings in Shares, the Shareholder should consult his or her stockbroker or agent without delay.
9. An application will be made to the UK Listing Authority for admission of the Shares issued under the Scheme to the Official List and to the London Stock Exchange plc for admission to trading on the London Stock Exchange plc's main market for listed securities (together "Admission"). On issue, the Shares will rank *pari passu* in all respects with the existing issued Shares of that class and will rank for future dividends. Subject to Admission, definitive share certificates for the Shares will be posted as soon as practicable following Admission at the risk of the persons entitled to them. Where Shares are issued as uncertificated shares, as soon as practicable following Admission the Company will arrange for the relevant Participating Shareholders' stock accounts in CREST to be credited with their entitlement to Shares and a Statement of Entitlement will be posted to them. Shares will be allotted as and when the Directors determine it appropriate, with Admission and Dealings expected within 10 Business Days of allotment. Share certificates will not be issued and CREST accounts will not be credited until Admission becomes effective.

In the event that Admission does not become effective, Mandate Forms will be disregarded in respect of the dividend and the full cash dividend will be paid as soon as possible in the usual way.
10. Further copies of this document and/or Mandate Forms may be obtained from the Company's website or by contacting Link Asset Services at the address on page 50 or by telephone on 0371 664 0324. Calls are charged at the standard geographic rate and will vary by provider. Calls outside the United Kingdom will be charged at the applicable international rate. The helpline is open between 9.00 am – 5.30 pm, Monday to Friday excluding public holidays in England and Wales. Please note that Link Asset Services cannot provide any financial, legal or tax advice and calls may be recorded and monitored for security and training purposes.
11. All costs and expenses incurred by the Scheme Administrator in administering the Scheme will be borne by the Company.
12. Each Shareholder applying to participate in the Scheme will be deemed to warrant to the Scheme Administrator and the Company in the Mandate Form that (i) save in the case of a Shareholder holding his Shares as nominee, during the continuance of his or her participation in the Scheme he or she will remain the sole beneficial owner of the Shares mandated to the Scheme free from encumbrances or security interests; and (ii) all information set out in the Mandate Form is correct and, to the extent any of the information changes, he or she will notify the changes to the Scheme Administrator.
13. Each Participating Shareholder acknowledges that none of the Company, the Scheme Administrator nor Beringea LLP is providing a discretionary manager service. Neither the Scheme Administrator, Beringea LLP nor the Company shall be responsible for any loss or damage to Participating Shareholders as a result of their participation in the Scheme unless due to the negligence or default of the Scheme Administrator or the Company (respectively), its servants or agents.
14. The financial calendar and procedure for future dividends both as to any final and/or interim dividend will be notified in writing to Shareholders and/or published through an RIS.
15. The Participating Shareholder may at any time, by notice of not less than 20 Business Days prior to the relevant Reinvestment Day to the Scheme Administrator, terminate his or her participation in this Scheme. If a Participating Shareholder shall at any time cease to hold any Shares of a particular class in the Company, he or she shall be deemed to have served such a notice in respect of his or her participation in the Scheme in respect of that class of Shares.
16. The Company and the Scheme Administrator shall be entitled, at any time and from time to time, to suspend the operation of the Scheme in whole or in part and/or to terminate the Scheme without notice to the Participating Shareholders. Circumstances under which the Directors might suspend or terminate the Scheme include, but are not limited to changes in legislation governing VCTs (including changes in available tax reliefs) and adverse market conditions in the public markets.
17. All notices and instructions to be given to the Scheme Administrator shall be in writing and delivered or posted to Link Asset Services, 34 Beckenham Road, Beckenham BR3 4TU. Applications to participate in the Scheme will be made by way of Mandate Form in the prescribed form as provided by Beringea LLP or the Scheme Administrator.
18. Subject to the prior agreement of the Scheme Administrator, the Directors shall be entitled to amend the Scheme terms and conditions on giving one month's notice in writing to all Participating Shareholders. If such amendments have arisen as a result of any change in statutory or other regulatory requirements, notice of such amendment will not be given to Participating Shareholders unless, in the Scheme Administrator's opinion, the change materially affects the interests of Participating Shareholders. Amendments to the Scheme Terms and Conditions which are of a formal, minor or technical nature, or made to correct a manifest error and which do not adversely affect the interests of Participating Shareholders, may be effected without notice.
19. By completing and delivering the Mandate Form provided by the Scheme Administrator, the Participating Shareholder will (i) agree to provide the Company with any information which it may request in connection with such application and to comply with legislation relating to VCTs or other relevant legislation (as the same may be amended from time to time); and (ii) declare that no loan has been made to the Participating Shareholder or any associate, which would not have been made, or not have been made on the same terms but for the Participating Shareholder offering to subscribe for, or acquiring, Shares, and that the Shares are being acquired for bona fide commercial purposes and not as part of a scheme or arrangement, the main purpose of which is the avoidance of tax.

20. Subscriptions for VCT shares only attract tax reliefs if in any tax year subscriptions to all VCTs do not exceed £200,000 (including subscriptions pursuant to dividend reinvestment schemes). Participating Shareholders under the Scheme are responsible for ascertaining their own tax status and liabilities and neither the Scheme Administrator nor the Company can accept any liability in the event they do not receive any VCT tax reliefs, or such reliefs are reduced or restricted in any way.
21. Dividends on Shares acquired in excess of £200,000 in any tax year will not be exempted from income tax in the same way as Shares acquired within this limit, therefore Participating Shareholders will generally be liable to tax on such dividends.
22. The election to receive Shares in place of the cash dividend is not being offered to, or for the benefit of, any citizen of the United States, Canada or Australia, any corporation, partnership or other entity created or organised in, or under the laws of the United States, Canada or Australia or any political sub-division thereof or with a registered office in any of these countries or any estate or trust, the income of which is subject to United States Federal, or Canadian, or Australian income taxation regardless of its source. "United States" means United States of America (including the District of Columbia). References to the United States, Canada and Australia include their territories, possessions and all areas subject to their jurisdiction.

No person receiving a copy of the Prospectus and/or Mandate Form in any territory other than the United Kingdom may treat it as constituting an invitation to him unless in the relevant territory such an invitation could lawfully be made to him without complying with any registration or other legal requirements. It is the responsibility of the Shareholder outside the United Kingdom wishing to elect to receive Shares to satisfy himself as to the full observance of the laws of the relevant territory in connection with the offer, including obtaining any governmental or other consents which may be necessary and observing any other formalities requiring to be observed in such territory.

23. The Company shall not be required to issue Shares hereunder if the Directors so decide in their absolute discretion. If the Directors decide not to issue Shares hereunder, the full cash dividend will be paid as soon as possible in the usual way.
24. These Scheme terms and conditions shall be governed by, and construed in accordance with, English law and each Participating Shareholder submits to the jurisdiction of the English courts and agrees that nothing shall limit the right of the Company to bring any action, suit or proceeding arising out of or in connection with the Scheme in any other manner permitted by law or in any court of competent jurisdiction.

Shareholders in any doubt about their tax position should consult an appropriate independent adviser.

PART 6

TERMS AND CONDITIONS OF APPLICATION

1. In these terms and conditions which apply to the Offer, "Applicant" means a person whose name appears in an Application Form, "Application" means the offer by an Applicant completing an Application Form and posting (or delivering) it to Beringea (the "Receiving Agent") and "Company" means either or both of ProVen plc and PGI VCT plc, or as otherwise indicated in this document or the Prospectus. Save where the context otherwise requires, words and expressions defined in this document have the same meanings when used in an Application Form and explanatory notes in relation thereto. Beringea, as Receiving Agent, has delegated the receipt and administration of application proceeds received under the Offers to Woodside Corporate Services Limited who are authorised and regulated by the FCA to hold client money (FCA ref 467652) (the "Client Account Administrators").
2. The contract created by the acceptance of an Application under the Offer will be conditional on:
 - (i) Admission becoming effective; and
 - (ii) the Sponsor's agreement between the Companies, the Directors, Beringea, Beringea LLC and Howard Kennedy becoming unconditional in all respects, and not being terminated in accordance with its terms before Admission becomes effective.
3. The Client Account Administrator, on behalf of the Company, reserves the right to present all cheques and bankers' drafts for payment on receipt and to retain share certificates and application monies pending clearance of successful Applicants' cheques and bankers' drafts. The Company may treat Applications as valid and binding even if not made in all respects in accordance with the prescribed instructions and the Company may, at its discretion, accept an Application in respect of which payment is not received by the Company prior to the closing of the Offer. If any Application is not accepted in full or if any contract created by acceptance does not become unconditional, the application monies or, as the case may be, the balance thereof will be returned (without interest) by returning each relevant Applicant's cheque or banker's draft or by crossed cheque in favour of the Applicant, through the post at the risk of the person(s) entitled thereto. Where payment in respect of an Application has been made by BACS transfer, any amount to be returned (without interest) to an Applicant will be returned to the bank account from which the application monies were sent. Application monies that cannot be matched to a valid application form within 5 working days of receipt will be returned to the remitting bank and will not be accepted or processed under the terms of the Offer. In the meantime, application monies will be retained by the Client Account Administrator in a separate client account having trust status. Multiple applications by Investors are permitted.
4. By completing and delivering an Application Form, you:
 - (i) offer to subscribe the amount of money specified in your Application Form or such lesser amount for which your Application is accepted, which shall be applied to purchase New Ordinary Shares as determined by the Pricing Formula set out below, on the terms of and subject to the conditions contained in this document, including these terms and conditions, and subject to the memorandum and articles of association of the Company.

Pricing of the Offer

Number of New Ordinary Shares = (Amount subscribed, less: (i) Promoter's Fee and (ii) Adviser Charge (if any) or Execution Only Broker initial commission (unless waived))/(latest published NAV*)

rounded down to the nearest whole number of New Ordinary Shares.

The Promoter's Fee is:

- (a) for Applications received through Financial Advisers and Execution Only Brokers, 3.0% of the investment amount less any discounts for early investment and for existing shareholders in the ProVen VCTs as described on page 8 of this document; and
- (b) for Applications received direct from Investors, 5.5% of the investment amount less any discounts for early investment and for existing shareholders in the ProVen VCTs.

The Manager may agree to reduce its Promoter's Fee (in whole or in part) in respect of any specific Investors or group of Investors.

* The NAV used in the calculation of the number of New Ordinary Shares to be issued by each Company will be the Company's NAV most recently announced to the London Stock Exchange, less the amount of any dividend to be paid for which the record date is prior to the relevant allotment date;

- (ii) agree that, in consideration of the Company agreeing that it will not on or prior to the Offer closing issue or allot any New Ordinary Shares to any person other than by means of the procedures referred to in this document, your Application

may not be revoked and that this paragraph shall constitute a collateral contract between you and the Company which will become binding upon despatch by post to, or (in the case of delivery by hand) on receipt by, the Receiving Agent of your Application Form;

- (iii) agree and warrant that your cheque or banker's draft may be presented for payment on receipt and will be honoured on first presentation and agree that if it is not so honoured you will not be entitled to receive a certificate in respect of the New Ordinary Shares until you make payment in cleared funds for such New Ordinary Shares and such payment is accepted by the Company in its absolute discretion (which acceptance shall be on the basis that you indemnify it, the Sponsor, the Receiving Agent and Client Account Administrator against all costs, damages, losses, expenses and liabilities arising out of or in connection with the failure of your remittance to be honoured on first presentation) and you agree that, at any time prior to the unconditional acceptance by the Company of such late payment, the Company may (without prejudice to its other rights) avoid the agreement to subscribe such New Ordinary Shares and may issue or allot such New Ordinary Shares to some other person, in which case you will not be entitled to any payment in respect of such New Ordinary Shares, other than the refund to you, at your risk, of the proceeds (if any) of the cheque or banker's draft accompanying your Application, without interest;
- (iv) agree that if, following the issue of all or any New Ordinary Shares applied for pursuant to the Offer, your remittance is not honoured on first presentation or you have failed to provide satisfactory evidence of your identity or your Application is otherwise deemed invalid, the New Ordinary Shares may, forthwith upon payment by the relevant Company of the offer price of the New Ordinary Shares to the Company, be transferred to the relevant Company at the relevant offer price per New Ordinary Share and any Director of the relevant Company is hereby irrevocably appointed and instructed to complete and execute all or any form(s) of transfer and/or any other documents in relation to the transfer of New Ordinary Shares to the relevant Company or such other person as the relevant Company may direct and to do all such other acts and things as may be necessary or expedient, for the purpose of or in connection with, transferring title to the New Ordinary Shares to the relevant Company, or such other person, in which case you will not be entitled to any payment in respect of such New Ordinary Shares;
- (v) agree that, in respect of those New Ordinary Shares for which your Application has been received and is not rejected, your Application may be accepted at the election of the Company either by notification to the London Stock Exchange of the basis of allocation or by notification of acceptance thereof to the Receiving Agent;
- (vi) agree that any monies refundable to you may be retained by the Client Account Administrator pending clearance of your remittance and any verification of identity which is, or which the Company, the Receiving Agent or Client Account Administrator may consider to be, required for the purposes of the Money Laundering Regulations and that such monies will not bear interest;
- (vii) authorise the Registrar to send share certificate(s), or have shares allotted to your CREST account (as the case may be), in respect of the number of New Ordinary Shares for which your Application is accepted and/or a crossed cheque for any monies returnable, by post, without interest, to your address set out in the Application Form and to procure that your name is placed on the register of members of the Company in respect of such New Ordinary Shares;
- (viii) where payment in respect of an Application has been made by BACS transfer, authorise the Client Account Administrator to transfer any amount to be returned to you to the bank account from which the application monies were sent;
- (ix) agree that all Applications, acceptances of Applications and contracts resulting therefrom shall be governed in accordance with English law, and that you submit to the jurisdiction of the English courts and agree that nothing shall limit the right of the Company or the Sponsor to bring any action, suit or proceeding arising out of or in connection with any such Applications, acceptances of Applications and contracts in any other manner permitted by law or any court of competent jurisdiction;
- (x) confirm that, in making such Application, you are not relying on any information or representation in relation to the Company other than the information contained in this document or the Prospectus announced by the Company or filed with the Registrar of Companies (or any supplementary prospectus so announced or filed) and accordingly you agree that no person responsible solely or jointly for this document, or any part thereof, or involved in the preparation thereof, shall have any liability for such information or representation;
- (xi) irrevocably authorise the Receiving Agent, the Client Account Administrator, the Registrars and/or the Sponsor or any person authorised by either of them, as your agent, to do all things necessary to effect registration of any New Ordinary Shares subscribed by or issued to you into your name and authorise any representative of the Receiving Agent, the Client Account Administrator, the Registrars or the Sponsor to execute any document required therefor;
- (xii) agree that, having had the opportunity to read this document and the Prospectus, you shall be deemed to have had notice of all information and statements concerning the Company and the New Ordinary Shares contained therein;
- (xiii) confirm that you have reviewed the restrictions contained in paragraph 6 below and warrant that you are not a "US Person" as defined in the United States Securities Act of 1933 ("Securities Act") (as amended), nor a resident of Canada and that you are not applying for any New Ordinary Shares with a view to their offer, sale or delivery to or for the benefit of any US Person or a resident of Canada;
- (xiv) declare that you are an individual aged 18 or over;
- (xv) agree that all documents and cheques sent by post to, by or on behalf of the Company, the Registrars, the Receiving Agent or the Client Account Administrator will be sent at the risk of the Applicant;
- (xvi) agree, on request by the Company, or the Sponsor on behalf of the Company, to disclose promptly in writing to the

Company, any information which the Company or the Sponsor may reasonably request in connection with your Application including, without limitation, satisfactory evidence of identity to ensure compliance with the Money Laundering Regulations and authorise the Company and the Sponsor to disclose any information relating to your Application as they consider appropriate;

- (xvii) agree that Beringea, the Sponsor and the Receiving Agent will not treat you as their customer by virtue of your Application being accepted or owe you any duties or responsibilities concerning the price of the New Ordinary Shares or the suitability for you of New Ordinary Shares or be responsible to you for providing the protections afforded to their customers. You will, however, be treated as a customer by the Client Account Administrator and a copy of its terms and conditions are available on request;
 - (xviii) where applicable, authorise the Company to make on your behalf any claim to relief from income tax in respect of any dividends paid by the Company;
 - (xix) declare that the Application Form has been completed to the best of your knowledge;
 - (xx) undertake that you will notify the Company if you are not or cease to be either a Qualifying Subscriber or beneficially entitled to the New Ordinary Shares; and
 - (xxi) declare that a loan has not been made to you or any associate, which would not have been made, or not have been made on the same terms, but for you offering to subscribe for, or acquiring, New Ordinary Shares and that the New Ordinary Shares are being acquired for bona fide commercial purposes and not as part of a scheme or arrangement the main purpose of which is the avoidance of tax.
5. No person receiving a copy of this document or an Application Form in any territory other than the UK may treat the same as constituting an invitation or offer to him, nor should he in any event use such Application Form unless, in the relevant territory, such an invitation or offer could lawfully be made to him or such Application Form could lawfully be used without contravention of any regulations or other legal requirements. It is the responsibility of any person outside the UK wishing to make an Application to satisfy himself as to full observance of the laws of any relevant territory in connection therewith, including obtaining any requisite governmental or other consents, observing any other formalities requiring to be observed in such territory and paying any issue, transfer or other taxes required to be paid by such territory.
6. The New Ordinary Shares have not been and will not be registered under the Securities Act, as amended, and may not be offered or sold in the United States of America, its territories or possessions or other areas subject to its jurisdiction (the "USA"). In addition, the Company has not been and will not be registered under the United States Investment Company Act of 1940, as amended. The Manager will not be registered under the United States Investment Advisers Act of 1940, as amended. No application will be accepted if it bears an address in the USA.
7. The basis of allocation will be determined by the Company in its absolute discretion after consultation with the Sponsor. The right is reserved to reject in whole or in part and/or scale down and/or

ballot any Application or any part thereof including, without limitation, Applications in respect of which any verification of identity which the Company, the Registrar, the Receiving Agent or Client Account Administrator consider may be required for the purposes of the Money Laundering Regulations has not been satisfactorily supplied. Dealings prior to the issue of certificates for New Ordinary Shares will be at the risk of Applicants. A person so dealing must recognise the risk that an Application may not have been accepted to the extent anticipated or at all. The Offer will not be withdrawn after dealings in the New Ordinary Shares have commenced. Multiple applications are permitted.

8. Save where the context requires otherwise, the terms defined in this document bear the same meaning when used in these Terms and Conditions of Application.
9. Execution Only Brokers who, acting on behalf of their clients, return valid Application Forms signed by an authorised signatory and bearing their FCA number will normally be paid commission, if permissible, of up to 2.5% of the amount invested by their client plus an annual trail commission, usually of 0.5% per annum of the amount invested by their client. The trail commission in respect of applications for New Ordinary Shares is expected to be paid first in August 2020 and annually thereafter (provided that the Execution Only Broker continues to act for the client and the client continues to hold the New Ordinary Shares) normally for up to 5 years, subject to any future changes in the rules and regulations. It will cease to be payable if the Company is wound up.

Beringea will maintain a register of Execution Only Brokers entitled to trail commission. Execution Only Brokers should keep a record of Application Forms submitted bearing their stamp to substantiate any claim for trail commission.

The Receiving Agent will collate the Application Forms bearing the Execution Only Brokers' stamps and calculate the initial commission payable, which will be paid within 14 days of each allotment.

10. Execution Only Brokers may agree to waive initial commission in respect of an Application. If this is the case, then the amount of an Application will be increased by an amount equivalent to the amount of the commission waived.
11. The Company has agreed to facilitate the payment of fees to Financial Advisers who provide advice to their clients, by accepting instructions from an Investor to pay the amount of the fee agreed by them to their adviser, together with any applicable VAT, out of the amount the Company receives from the Investor. Investors who wish the Company to facilitate the payment of a fee in this manner should complete Section 5(i) on the Application Form. Investors should be able to claim initial tax relief on the full amount of their investment, subject to the normal rules on eligibility for tax relief.

The Receiving Agent will collate the Application Forms bearing the Financial Advisers' stamps and calculate the fees and related VAT, which will be paid within 14 days of each allotment.

12. Applicants (and their spouses) who had an existing shareholding in one of the ProVen VCTs on 11 January 2019, and whose valid Application forms part of the first £5 million of valid Applications

The subscription price of the Additional Shares will be met by the Manager.

13. Money Laundering Regulations

*Important note for applications for 15,000 Euros (approximately **£13,500**) or more in cash*

If the value of the New Ordinary Shares applied for exceeds Euros 15,000 (approximately **£13,500** as at the date of this document), payment should be made by means of a UK clearing bank cheque drawn in your name on an account in your name or by BACS transfer from an account in your name. If this is not practicable and you use a cheque drawn by a third party or a building society cheque or banker's draft, you should write your name, address and date of birth on the back of the cheque or banker's draft.

The verification of identity requirements of the Money Laundering Regulations will apply and verification of the identity of the Applicant may be required. Failure to provide the necessary evidence of identity may result in the Application being treated as invalid or in delay in confirming the Application.

The Receiving Agent will undertake a search with SmartCredit Limited (SmartSearch) for the purpose of verifying your identity. To do so SmartSearch may check the details you supply against any particulars on any database at a Credit Reference Agency (public or otherwise) to which they have access. They may also use your details in the future to assist other companies for verification purposes. A record of the search will be retained for as long as necessary to fulfil the Receiving Agent's legal obligations under the Money Laundering Regulations.

The completion by an authorised financial intermediary of Section 11 of the Application Form confirms that the requirements of the Money Laundering Regulations for the identification and verification of the Applicant have been complied with by the intermediary.

- Existing Shareholders of the Company have passed a resolution to allow the Company to use its website to publish statutory documents and communications to Shareholders, such as the annual report and accounts, as its default method of publication. In addition to this resolution, company law requires that shareholders are individually asked to consent to this method of publication. The Company has previously requested this consent from existing Shareholders and so, in order to ensure that new Investors are given the same opportunity, the Application Form makes provision for requesting consent from new Investors.

It is the Company's intention in the future to provide, as far as possible, all Shareholder communications via the Company's website (www.provenvcts.co.uk) to all Shareholders who have not specifically elected to receive the information in hard copy (i.e. paper) form. This will reduce the number of communications sent by post and will result in cost savings to the Company. It will also reduce the impact that the unnecessary printing and distribution of reports has on the environment. Shareholders will be notified, either by email or post, each time the Company places communications on the website.

If you wish to receive postal notification of publication of the Company's shareholder communications then you do not need to do anything.

If you wish to receive email notification of publication of the Company's shareholder communications then please ensure that you complete Section 6(a) on the Application Form.

If you wish to receive hard copies of the Company's shareholder communications then please ensure that you complete Section 6(b) on the Application Form.

Should you subsequently wish to change your election, you can do so at any time by contacting the Registrar, Link Asset Services, VCT Shareholder Solutions, 34 Beckenham Road, Beckenham, Kent BR3 4TU, or alternatively at <https://www.signalshares.com>. Notwithstanding any election, the Company may in its sole discretion send any notification or information to Shareholders in paper form.

PART 7

DATA PROTECTION

The Companies have measures in place to ensure that any personal details obtained from Shareholders and Applicants for New Ordinary Shares are processed and maintained in accordance with accepted principles of good information handling and in accordance with the General Data Protection Regulation (GDPR), including by adhering to the ProVen VCTS' privacy notice at <http://www.provenvcts.co.uk/legal>.

Collecting your Information

The information we collect on the Application Form, which includes your personal details, bank account details, and, where relevant, identity details, information about source of funds and details of your financial adviser, will be used to process your Application. Where this is accepted, the information you have provided will be used to allot shares to you and to issue your share certificate, as well as to update your financial adviser, where applicable.

Keeping your Information

Once New Ordinary Shares are allotted, the Registrar will retain the Companies' share registers as required by law. These registers will contain your personal and contact details and information about your shareholding. Further, to the extent that it is required by law, your information will be used to send you routine shareholder communications (including the issue of Annual or Interim Reports and shareholding meeting details, or notifications of their publication). Where you have indicated that you are happy for Beringea to send you information about the other ProVen VCTs or other of their investment products and services, the Companies will share your information with Beringea so that they can contact you for these purposes.

Third Parties

The Companies will need to share your information with third parties that provide services to shareholders on their behalf, for example the Registrar, the Client Account Administrator, companies that manage shareholder mailings and Beringea (where it also acts as the administrator for the Companies or as Company Secretary). The Companies will also disclose your information to a regulator where required to do so, for example HMRC or the Financial Conduct Authority. In each of these cases, your information is only shared as strictly necessary to provide you with legally required shareholder services and to meet the legal obligations of the Companies. These third parties may also need to share your information with other third parties. For example, the Registrar may need to share your information with third parties to protect against fraud and reduce payment risks, and with credit reference agencies to check your identity and to make other financial crime checks. Other than as detailed above, the Companies do not sell or share your personal information and/or data to third parties for third party direct marketing purposes. We will also not share your information outside of the UK unless required by law.

Retention Periods

The Companies will retain your information for as long as necessary to fulfil the purposes for which it was collected and processed.

Your Rights

You have rights in relation to our use of your information as follows:

- Access to, corrections to, and deletion of your personal data if we no longer have a compelling reason to keep it;
- Transfer of your data (data portability);
- Restriction of processing of your data (for example if you think your information is inaccurate, you may restrict our use of it until this has been corrected); and
- Objection to our processing of your data (although note that we cannot process your application without doing so).

If you have any questions about the use of your information, or wish to exercise any of the above rights, please contact ProVen VCTs, c/o Beringea LLP, 39 Earlham Street, London WC2H 9LT or by email at info@beringea.co.uk or by telephone on 020 7845 7820. You also have the right to complain to the Information Commissioners Office if you think there is a problem with how we are handling your personal data (www.ico.org.uk/concerns/handling; 0303 123 1113).
