VT Chelsea Managed Monthly Income

aims to produce monthly income with some capital growth over the long term, but with lower volatility than global equities[†]. The fund has a target weighting of between 40% and 60% in UK and

Fund commentary The fund fell -4.54% during the three month period, underperforming the IA Mixed Investment 20-60% Shares sector, which fell -2.26%.* However, this certainly doesn't tell the full story. As the lockdown caused the global economy to shut down, the market panicked and we experienced one of the steepest falls in history.

The fall was much faster and more violent than anything during the great financial crisis. Our alternative investment trusts, which had previously been defensive, fell heavily. This made little sense. For example, renewable energy trusts, mostly dependent on government subsidies from power generation, were largely unaffected by the virus. The sun continued to shine and the wind continued to blow. Yet even so many of these trusts fell over 40% and started trading at extreme levels. This provided us with some great opportunities and we
